

## FRENCH ACCEPT DEFEAT ON DEBT

Parliament Moves to Ratify Mellon-Berenger Pact

Courteous Tone of Refusal Soothes Gallic Pride

Accord Stated to be Signed About 30th Inst.

PARIS, June 30. (AP)—Parliament virtually has decided upon July 9 as the date for opening debate on the ratification bill for the Mellon-Berenger debt accord in the Chamber of Deputies, now that French public opinion has become reconciled to the impossibility of obtaining delay on the maturity date for France's \$400,000,000 war stocks bill.

Admission by the United States of its inability to delay the payment beyond August 1 was received with fine sporting spirit by all France. This was reflected in newspapers of all shades of political opinion.

The friendly manner in which Secretary of State Stimson couched his refusal to Ambassador Claudel's request for postponement made a deep impression here.

**NEWSPAPER COMMENT**  
The semi-official newspaper Temps said today:

"The Washington government's reply is negative but the form in which it was made by the representative of the American people at Washington proves that the United States government understood the spirit in which the Paris government undertook the mission entrusted to it by Parliament.

Although deploring the negative reply, we must note that Secretary of State Stimson gave his refusal a most courteous character so that the incident has no bad effect on the friendly relations of France and the United States."

The Petit Parisien remarked that "Mr. Stimson put into the refusal of Ambassador Claudel's request all the courtesy which his friends can wish."

**CAILLAUX IN LINE**  
Joseph Caillaux, former Premier and Minister of Finance, who negotiated the Franco-British debt accord, pledged himself to ratification of the Mellon-Berenger accord today.

M. Caillaux, who is a bitter opponent of Premier Poincaré and still commands great influence in French political life, declared today: "My vote, as well as those of my friends, is pledged to ratification."

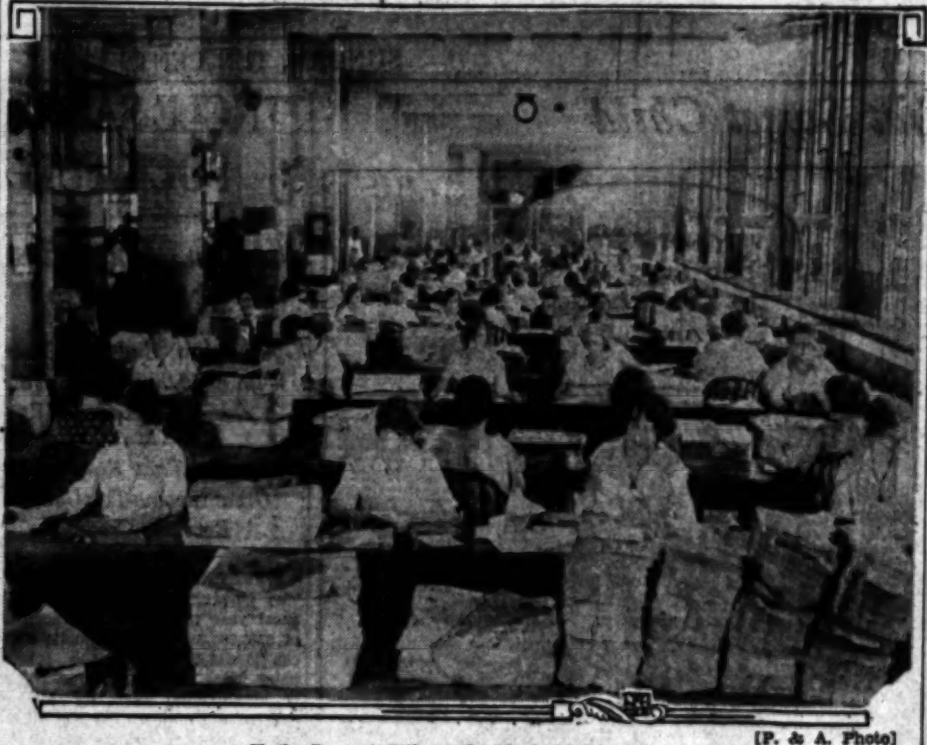

The great nation to which we belong cannot dream for one minute of even the possibility of having its signature unhonored."

**TIME CUT CLOSE**  
It is expected that the Chamber of Deputies will finish with the ratification bill by July 16, when the bill will be sent to the Senate. The Chamber will consider it again on July 23, which gives the Deputies a full week to put finishing touches to whatever reservations or other amendments they may desire to incorporate before final ratification about July 30.

All danger of a Cabinet crisis, which seemed imminent for a time last week, now is considered to have passed.

## TREASURY RUSHES NEW CURRENCY OUT

Money, Money Everywhere, but Not a Cent to Spend

Clerks Inspect Bills as So Much Merchandise  
Issuance of the new-size currency, which will begin at the banks throughout the country on July 10, has meant added work for the employees of the Treasury Department who have been bending their energies today meeting the demand for the new bills. In the picture above is shown a group of women clerks checking over the currency as it comes from the engraving plants before it is cut up into separate bills. The sheets are piled about like so much paper, but the room is carefully guarded so that none gets out unlawfully.

## UNCLE SAM HAS HIS SOCK FULL

(Continued from First Page)

from back taxes were reasonably accurate. Owing to the unprecedented conditions above described, which it was impossible to forecast with certainty, the receipts from individual income taxes were considerably underestimated.

"Custom duties, including the tonnage tax, yielded \$62,000,000 as compared with \$60,000,000 in 1928 and the Treasury estimate of \$62,000,000. The increase is accounted for, in large measure, by the impending change in our tariff rates experience having shown that imports tend to increase prior to tariff legislation."

**Mexicans Flock to Mass Again**

MEXICO CITY, June 30. (AP)—The first Sunday mass in almost three years was said this morning in the thirty churches of the federal district.

Tens of thousands of Mexicans flocked into the churches when the bells tolled. Masses have been said in several churches of Mexico City during the past few days, the services being resumed as fast as the churches were returned by the government to the priests.

**NEW ENTRANCE LAW EFFECTIVE**  
(Continued from First Page)

passports annually while the new quotas provide for 133,114 eligible a restriction of approximately 11,000.

There is a cry to be little or no noticeable effect in this country for years to come, but in certain foreign countries, especially Germany and the Scandinavian countries, where the quota was practically cut in two and where there is already a long waiting list, it is probable that there will be great disturbance among those who will be forced to wait an insupportable number of years for their chance to migrate to this country.

**NUMBERS SHUFFLED**  
Many persons in Eastern European countries who have been waiting for a long time their chance to get a visa for this country have written to the State Department expressing optimism that under the new quota their term of waiting will be shortened and quickly. United States officials emphasize that the change is merely numerical.

Contrary to general opinion, the administration of this new provision is not in the hands of the immigration bureau of the Department of Labor, but is directly in the hands of the consular service of the State Department. These consuls in the foreign offices are entirely responsible. The State Department does not direct their action in any individual case or in the distribution of quotas.

The British quota is now 65,721, as compared to 24,007 previously. The estimated demand is 110,000 at the present time. Since that estimated demand includes many persons who will decide not to go when the time comes and quite a few who will be refused visas, it is reasonable to suppose that in the course of a year or a year and nine months there will be no waiting list under the British quota—that is, no further unsatisfied demand.

In regard to Ireland, there was an underquota this year of about 7000. It is the first time such a thing has happened. The quota from Ireland is reduced to 11,600. The old quota is 23,967, and the new quota, 17,863.

**GERMANY HARD HIT**  
Germany appears to be the worst hit of any country. The reduction is from 51,227 in the old quota, to 25,867, with a waiting list of nearly 70,000 already. So there is likelihood of a very considerable period of waiting for German natives who plan to emigrate to the United States.

This situation also applies to three Scandinavian countries—Norway, Sweden and Denmark—and France. The old quota for Norway was 6453, and the new quota is 2377. The quota for Sweden was 9661, and the new is 3314. The old quota for Denmark was 2780, and the new is 1181. The old quota for France was 3964, and the new quota is 3088.

All of the Southern and Eastern European countries, excepting Portugal, Rumania and Czechoslovakia, have had their quotas increased. These increased quotas include Spain, from 331 to 353; Greece from 100 to 307; Hungary from 473 to 889; Italy from 2445 to 3602; Poland from 5262 to 6534; Russia from 2348 to 2784; Turkey from 100 to 228; Yugoslavia from 671 to 843, and Syria in the Near East from 100 to 328.

**GRAPE GROWERS FORM COMBINE**  
(Continued from First Page)

lonial Grape Products Company, secretary and treasurer, Walter E. Taylor, formerly secretary-treasurer of Community Grape Corporation, vice-presidents in charge of production and research, S. Federpiet, formerly president of Colonial Grape Products Company, in charge of the production of the northern district; A. Perelli-Minetti, formerly vice-president and general manager of California Grape Products Company, in charge of production Southern California; L. A. Weller, formerly in charge of Garrett & Co. plant at Cucamonga, in charge of production manager in all districts of the State.

**PROPERTIES ABSORBED**  
The merger has absorbed properties of its principals in California and throughout the entire country, and the board of directors of the new combination is H. R. Weller, New York; S. Federpiet, San Francisco; Hugh R. Adams, Chicago; Secondo Gossett, Jr., Los Angeles; A. Perelli-Minetti, Delano; James A. Bartlett, Los Angeles; Walter E. Taylor, Los Angeles; H. O. Lanza, San Francisco; A. R. Morrow, San Francisco; Donald D. Conn, San Francisco; R. D. Fontana, San Francisco; Joseph T. Grace, Santa Rosa; Louisa Guasti, Los Angeles; T. C. Gregory, San Francisco; Lee Jones, Los Angeles; Mario P. Tribuno, New York; Paul Garrett, New York.

The business offices will be at Los Angeles, with branches in Chicago, New York, New Orleans and San Francisco.

The new company will conduct a wide distribution of a line of grape products, including grape juice, grape wine, grape brandy, grape syrup, cooking sauces, wine tonics, cooking wines, grape concentrate and syrup, wine jellies and other culinary and table products.

**Reds to Execute Imperial Agents**  
MOSCOW, June 30. (AP)—Seven persons described as former imperial secret agents and speculators were sentenced to death yesterday by the District Court at Moscow, in White Russia. Nineteen others were sentenced to varying terms of imprisonment.

It was charged that the defendants set fire to a co-operative farm and attempted to assassinate representatives of soviet authorities in the town of Juravichi.

**Negro Wanted Justice, Got It**  
CHICAGO, June 30. (Exclusive)

Jesse Williams, colored, was sentenced to life imprisonment in the penitentiary by Judge Harry R. Miller in the Criminal Court after a jury had found him guilty of burglary under the Habitual Criminal Act. In 1926 Williams was convicted the first time, and now he was found guilty of burglarizing a drug store.

"Judge, I want justice," said Williams, when the judge asked him if he knew of any reason why he should not be sentenced.

"You're going to get justice this time," replied the judge, as he imposed the life penalty.

**WOLVES AT DOOR**  
LAVACA (Ark.) June 30. (AP)—So numerous and dangerous have wolves become that Western Arkansas region that R. A. McCafferty, United States trapper from Scott county, has been sent here as a wolf "Pied Piper." A litter of five wolves was found four miles from here recently.

## DEPORTING LAW FAILURE SHOWN

Secretary Davis Tells How Loopholes Exist

Case of Alien Gangster Trio Brought Into Open

Lack of Co-ordination With Police Disclosed

BY ARTHUR SEARS HENNING  
WASHINGTON, June 30. (Exclusive)—Secretary of Labor Davis has furnished me with the results of a test I asked him to make of the operation of the Federal deportation law. It illustrates the failure to rid the country of alien gangsters and other alien criminals, such as have been responsible for a reign of terror in Chicago and other large cities.

When John Scalisi, Albert Anselmi and Joseph Quina, notorious Chicago gangsters, were murdered at Hammond, Ind., May 8 last, their bodies were shipped back to their native Sicily. Publication of this fact caused some persons to inquire why these alien desperadoes never had been deported.

I immediately asked Secretary Davis to investigate the records of the three gangsters and inform me whether they were deportable and, if so, why they had not been deported.

Anselmi was an outlaw in his native Italy. On September 11, 1923, an Italian court issued a warrant for him, charging attempt to murder on November 27, of the same year, another warrant for operating with an outlaw band. In September, 1924, he fled Sicily and never had been informed that he was in the United States. Soon afterward Anselmi turned up in Chicago as a member of the Genna gang along with Scalisi.

**POLICEMEN SLAIN**  
On June 19, 1928, Policemen Harold P. Olson and Charles B. Walsh were killed in battle with Anselmi, Scalisi and other Genna gangsters. Anselmi and Scalisi were captured and indicted for the murders. On November 11 they were convicted of manslaughter in the Olson case and sentenced to four years in the State Penitentiary at Joliet, Ill.

The nine months elapsing between arrest and conviction Anselmi spent in Cook County Jail within easy reach of the Federal immigration authorities who, however, officially, were ignorant of his existence. They never had been informed that he had entered the country illegally, or that he was wanted in Italy on a criminal charge.

On May 2, 1928, Anselmi and Scalisi were taken to Joliet prison to serve the fourteen-year manslaughter sentence. On December 23 the Illinois Supreme Court granted them a new trial. They were brought back to Chicago and released on bail January 23, 1927.

They were in court again for the second trial from June 9 to June 23, but the immigration authorities had not heard of Anselmi. On June 23 the two gangsters were acquitted of the Olson murder and walked out of court scot-free.

Not until December, 1927, were the immigration officers at Chicago informed that Anselmi had entered the country illegally. A warrant for his arrest was issued December 23.

**AS TO SCALISI CASE**  
"The immigration service, in co-operation with the Chicago police," Secretary Davis reports, "endeavored to locate Anselmi, but never succeeded in doing so. Therefore, it is not possible at this time to determine whether or not he was subject to deportation."

Secretary Davis' report on Scalisi follows:

"In the case of John or Giovanni Scalisi and Scalisi alias Antonio Calia, the records show lawful admission at the port of New York January 22, 1921. On December 9, 1925, he was convicted of murder, committed in Chicago and was sentenced to a term of fourteen years in the State Penitentiary at Joliet, Ill. The alien was arrested by the immigration authorities at the State prison November 15, 1926, and granted hearing, with the result that he was ordered deported to Italy when released from the penitentiary on the ground that he had been sentenced to imprisonment for a term of one or more years because of conviction in this country of a crime involving moral turpitude committed within five years after entry. The record further discloses that in January, 1927, the Supreme Court of the State of Illinois granted the alien a new trial which resulted in a verdict of not guilty. This acquittal, of course, made it necessary to cancel the warrant of deportation."

**ENROLLMENT NEEDED**  
Concerning Quina, the immigration service had no information at all.

"It is, of course, true," comments Secretary Davis in his letter, "that there are in the United States a large number of aliens who, because of criminal activities or for other reasons, would be subject to deportation if found. The immigration service does its best to enforce the law with respect to these classes and at the present time aliens are being deported at the rate of about 12,000 annually. It goes without saying, however, that the immigration service cannot police our cities and thousands of alien-born criminals. As a consequence, service must to a large extent depend upon the co-operation of the police and other law-enforcement authorities in bringing illegal resident aliens to light and thereby making deportation possible."

The Secretary argued that has long advocated would aid in bringing to light deportable foreigners. The present deportation law is full of loopholes and entirely too lenient is widely known. Indeed, the alien bloc in Congress succeeded in the last, as in previous Congresses, in staving off his revision.

Before the 4th visit our

## SUMMER SALE of WOMEN'S APPAREL

In bringing this sale to your attention, there are several alternatives. We might state prices . . . we might go into lengthy detail regarding the numerous garments and accessories that are now offered in this special event . . . we might tell of the remarkable values . . .

### BUT THIS IS UNNECESSARY

For the mere fact that Oviatt's announce a sale is sufficient in the minds of all women who like nice things to make them desire to take advantage of the opportunity that is now offered them.

They know an Oviatt sale is a distinguished sale . . . that one finds garments both unusual and smart at far less than their true value.

**The Stage Stars of a generation ago**

Were nearly all patrons of mine. I received stage garments as well as personal wardrobe for dry cleaning from all over America—from names that were once on everybody's tongue. Artists such as Minnie Maddern Fiske, Anna Held, Rose Stahl, Valeska Suratt and Mitzel Hajos.

From each of the above I treasure letters of commendation.

For example, fifteen years ago, Margaret Livingston wrote: "You have cleaned my gowns most beautifully and I take great pleasure in telling you that the cleaning you have done for me is the very best work I have ever had."

Then, John P. Daly, manager of "The Pink Lady," seventeen years ago, sent me a letter in which he said: "Your company was recommended to us by the wardrobe mistress of the Anna Held Company on account of the good work you had done for them. It was for this reason that we held the work of the Pink Lady Company until we reached you. Now that it has been completed we feel that the recommendation was well merited as the work is highly satisfactory and service all that we could have asked for."

For twenty-nine years, people who are in the public eye—people whose clothes must always look well—have sent their dry cleaning and pressing to us; and our reputation today deserves stands higher than it ever did because our standard of work is higher than it ever was (and it costs less!)

**PIERCE-ARROW**  
Series "80" sedan for seven—1926.....\$1195

BESIDE the usual attraction that a Re-Perfected Pierce-Arrow has for the private owner, there is the value attraction to business men who maintain fine cars for rental purposes.

We offer a Re-Perfected Pierce-Arrow "80" sedan for seven passengers that will serve admirably for either class of buyer.

Our own shops guarantee this car against defective parts or faulty workmanship and will service it for the same period as they do a new car. It has been Re-Perfected in our own shops.

The original finish needs no immediate renewal or retouching. Two of the tires are new. A spare and the usual Pierce-Arrow accessories are attached.

We consider the price of \$1195 as quite low.  
An exchange and terms may be arranged.

**MADRID OFFERS RESCUE THANKS**  
Nations That Aided Flyer Hunt Wildly Cheered  
Large Crowd Pays Visit to Various Embassies  
Airmen Saved at Sea Due in Gibraltar Tomorrow

MADRID, June 30. (AP)—Thousands of Spaniards from every walk of life participated today in a monster demonstration organized by the Spanish Aero Club as a public expression of Spain's gratitude to the British, French, Portuguese and Italian governments for their spontaneous and invaluable aid in the hunt for Maj. Ramon Franco and his three companions.

A procession, whose marchers carried the flags of five nations, assembled in the center of Madrid at noon and paraded to the French Embassy, which was enthusiastically cheered.

**EMBASSY CHEERED**  
The British Embassy was next visited. The excitement was at white heat there in recognition of the achievement of the British aircraft carrier Eagle in finding the four Spanish aviators yesterday after they had been drifting aboard their plane in the open sea since the Saturday previous.

Cheer after cheer was given for the British navy and for the British air force, and it was a long time before the marchers had sufficiently vented their enthusiasm to pass on to their next objectives, the Portuguese Embassy and the Italian Embassy.

**THANKS RETURNED**  
The demonstration was enthusiastically but orderly. It ended in front of the Italian Embassy with speeches by members of the Aero Club thanking the people of Madrid for the warm tokens of gratitude they had given to the nations which collaborated in the search for the four flyers.

"Saved, hurrah!" was the brief and joyous wireless message which the mother of Sergt. Madariaga received today from her son aboard the Eagle.

**GIBRALTAR CROWD AWAITING ARRIVAL**  
GIBRALTAR, June 30. (AP)—The town and the great rock fortress of Gibraltar were peacefully invaded today by crowds of newspaper men, Spanish and foreign, and photographers waiting for the arrival of Maj. Franco and his three fellow-aviators who are expected Tuesday morning aboard the British aircraft carrier Eagle.

A brother of the mechanic, Pedro Madariaga, is the only relative of any of the aviators who has yet arrived. Others were expected tomorrow.

**RESCUED AIRMEN WILL ARRIVE TOMORROW**  
LONDON, June 30. (AP)—The British aircraft carrier Eagle is expected to land Maj. Ramon Franco and his fellow-aviators at Gibraltar on Tuesday, the British Admiralty informed the Associated Press today. Latest news from the Eagle conveyed no word of a reported intention to disembark the Spanish aviators at Cadix, Spain.

**Los Angeles Times**  
**Mishap Bars End of Record-Breaking Flight**

(A. P. Photo)

Capt. Hawk's Plane After Crash Through Fence  
Only a wing and the undercarriage was damaged when the record-smashing flyer misgauged his landing in the dark early Saturday morning in New York and ran through the fence bordering the field. He had just concluded a round-trip to Los Angeles in which new time marks were established in both directions.

**NEW TRIAL FOR BOY SLAYER**  
Kentucky Lad of 6 Cited for Delinquency After Conviction on Murder Charge

PAINTSVILLE (Ky.) June 30. (AP)—Carl Newton Mahan, 6-year-old Paintsville lad who recently attracted nation-wide notice after he had been sentenced to serve in a reformatory until he is 21 years of age on a charge of murdering his playmate, Cecil Van Hoose, has been called to stand trial tomorrow before County Judge Butler on a charge of delinquency.

Announcement that he will try young Mahan on the delinquency charge was made today by Judge Butler of Johnson county, upon receipt of a letter from Atty.-Gen. Carmack saying that the Kentucky statutes allow such action to be taken. If the lad is found guilty, he may be paroled either in the custody of his parents or in the care of proper people, subject to visits of a probation officer.

The calling to trial of young Mahan on the delinquency charge, after a writ of prohibition granted the defense restrained the enforcement of the reformatory sentence, follows closely on the arrest Friday of his father on a charge of operating an automobile while under the influence of liquor. The father was fined \$250 and his county license to operate a taxi was withdrawn after his arrest. His city license to drive a taxi was revoked about a year ago.

John W. Wheeler, chief of the defense counsel for young Mahan, said today that he has not been notified of the impending trial of the boy, and that he knows of no grounds on which Carl can be brought to trial again. According to Mr. Wheeler, the slaying of 8-year-old Cecil Van Hoose was a tragedy that could have occurred in any home under like circumstances.

The Mahan boy shot his playmate following an argument over a piece of iron the two intended to sell to a junk dealer. His trial and subsequent sentence caused much comment throughout the country.

**Rain Relieves Long Dry Spell in Denver Area**

DENVER, June 30. (AP)—A prolonged hot spell was broken in Denver today by a short but heavy downpour of rain, while vacationists at the summit of Pike's Peak engaged in snowball battles with ammunition from a two-inch fall during the afternoon. For two consecutive days the temperature had reached 94 deg. here.

Rain in other parts of the State was looked upon by forest officials as an aid in reducing the fire hazard which had been acute for weeks. A forest fire near Colorado Springs was extinguished after threatening the Garden of the Gods, natural show place visited by tourists.

Forest fires in various parts of the State which, fanned by winds and fed by dry timber, had threatened to get beyond control all last week, tonight were either completely out or almost extinguished, reports to the United States district forester's office said.

**Child Drowns in Crock of Milk**

PALO CEDRO, June 30. (AP)—Plunging head first into a ten-gallon milk crock, Olga Shuben, 2-year-old daughter of Mr. and Mrs. Nicholas Shuben was drowned here last night. The crock was half filled with sour milk.

The baby had been left alone in the house while the parents and older children were working in the barnyard.

**Shouse Says G.O.P. Split**

KANSAS CITY, June 30. (AP)—Jouett Shouse, chairman of the National Democratic Executive Committee, on his arrival here tonight issued a statement in which he declared that the Republican party "is widely split in half a dozen directions."

"It is not our job to formulate policies," the chairman stated. "It so happens that the Republican party is just now furnishing us with a policy ready-made."

**CHICAGOAN BEATEN BY IRATE BANDITS DIES**

CHICAGO, June 30. (Exclusive)—Wounds inflicted by two irate bandits who beat him up when they found he had no money caused the death of Harry O. Green, 38 years of age, tonight at the County Hospital.

## CHURCH PAPER ATTACKS FILMS

Will Hays Objects of Strong  
Editorial in "Churchman"

Declares Pictures Are Not  
Concerned With Morals

Rigid Censorship Predicted  
Unless Change Comes

NEW YORK, June 30. (Exclusive) Will Hays, president of the motion-picture producers and exhibitors of America, is the object of a bitter editorial onslaught by the Churchman in its current issue. The Churchman is the principal mouthpiece of the Protestant Episcopal Church of America.

The editorial is based upon an attack made upon Mr. Hays during the recent meeting of the editorial council of the religious press in Washington, when discussion arose as to "what should be the attitude of the religious press toward the movies?"

The editorial comments on the significance of the fact that the subject ever came up for discussion at all, for "certainly," it says, "the church journals have carried on no organized propaganda against the movies."

### MORALS PLAYED

"The motion-picture industry is concerned not at all about standards, either of taste or morals," continues the writer of the attack "and, in our opinion the two are intimately related. The only thing the industry is interested in cleaning up is the box-office revenue by playing to the tabloid mind."

"It conceived the bright idea a few years ago that simple-minded and possibly sensitive church folk could be lured into supporting the movies and keeping their mouths shut about censorship if the industry could be dressed up with a Presbyterian elder. And it has worked pretty well, with a good deal of letter writing, a fairly stable item for luncheon expenditure, and no little flattery on the part of Mr. Hays and some of his skillful assistants."

### ABOUT THROUGH

"But it isn't going to work much longer. The Churchman is opposed to censorship on principle. The motion-picture industry is opposed to censorship because of box-office phobia. It fears the possibility of the extension of censorship with a dollar-and-centa fear, which is always fairly repulsive."

"In spite of the liberal sentiment in the churches, however, the motion-picture industry is going to get censorship—and real censorship—if it doesn't stop hamstringing the public."

## GROCER AND HIS WIFE SLAIN AT THEIR HOME

ALLIANCE (O.J. June 28. 47)—An Italian grocer, Sam Degalmer, 48 years of age, and his wife, Davina, 38, were shot and killed while entering their home last night.

After the shooting, Mr. and Mrs. John Barnett, neighbors, were arrested on technical charges for investigation. A neighborhood quarrel is believed the cause.

## SAFE AND SANE FOURTH URGED

July Called Tragic Month  
by Welfare Group

Fireworks Should Be Kept  
From Children

Municipal Demonstrations  
Seen as Solution

NEW YORK, June 30. (Exclusive) Hundreds of children suffer painful eye injuries or become totally blind about this time each year as the result of playing with dangerous fireworks. Parents are reminded by Lewis H. Carris, managing director of the National Society for the Prevention of Blindness, in anticipation of the usual toll of unnecessary casualties that occur during the week of the Fourth of July.

"Nearly all of these accidents which result in impairment or destruction of vision by fireworks are preventable when parents supervise the use of this season's fireworks," Carris said. "It is barbaric to exact human sacrifices, consisting principally of children, because of misguided enthusiasm in celebrating Independence Day. A good way to show one's genuine patriotism is to work for a rational safe and sane holiday, which will conserve the limbs and sight of American, young and old alike."

### COULD CUT ACCIDENTS

"The great number of serious accidents which occur as the result of Fourth of July celebrations could be reduced materially if children were not permitted to drag out the holiday over periods of weeks before and after the event. Most of these accidents could easily be avoided by prohibiting strictly the public sale of fireworks before the first of July and after the Fourth, and by keeping fireworks out of the hands of very young children; each year scores of little children of 3, 4 and 5 years are injured by fireworks given to them by older children or adults."

"At this time the National Society for the Prevention of Blindness would urge legislators and municipal officials throughout the country to reflect upon the wisdom of forbidding entirely the public sale of blank pistols, cannon crackers, rockers, Roman candles and similar dangerous toys for celebrating."

### TRAGIC MONTH

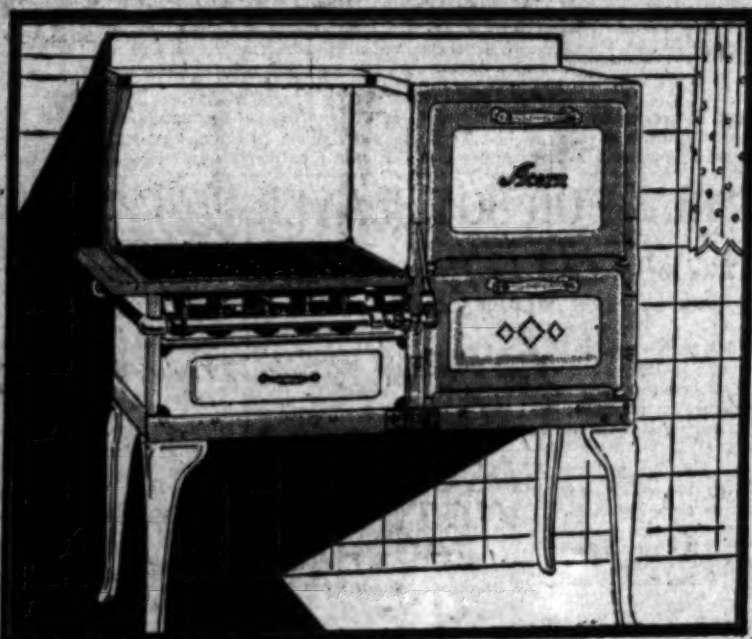

"The reckless ways in which these hazardous appliances are used during the first week of July make this the most tragic month of the year from the point of view of the agencies working for the prevention of blindness and the saving of life and limb."

"Instead of permitting the discharge of fireworks by individuals, civic pyrotechnic displays under the direct supervision of experts should be substituted. The best way to eliminate habits of folly is by substitution of something better and city officials with a strong sense of responsibility for the safety and welfare of their communities can minimize the Fourth of July disasters by providing suitable public entertainments on the historic day which commemorates the birth of our nation."

# 49th annual SUMMER SALE

**TODAY**—first day of the great July Sale at Barker Bros. A day of outstanding opportunities, when vast selections of furniture and furnishings—over \$2,000,000 worth—go on sale at reductions of 10% to 50%.

**BUY NOW!**

Regularly \$162.50!

## 300 "Acorn" RANGES

WASHINGTON, June 30.—The barrage of railroad schedules and timetables that will be issued today is the nearest thing to New York's "bulletin board" that the nation has. It is a bulletin board of the nation's transportation system, and it is the most important of the kind in the world.

Los Angeles is the only city in the world that is not a part of the trans-Atlantic system. Its routes are not great, but they are the only ones that take advantage of the advantages of the earth.

THREE CITIES  
OFFER ENIGMARail Line Seeks Closest  
Coast Town to EastLos Angeles, San Francisco,  
Seattle Each ClosestIt Depends on How One  
TravelsWASHINGTON, June 30. (Exclu-  
sive)—The barrage of new airplane  
schedules to the west  
has raised a question:What is the nearest large west-  
ern city to New York?Los Angeles, Seattle and San  
Francisco are each nearest to New  
York.A bulletin from the  
headquarters of the  
Geographical Society, "It  
depends on how you travel."San Francisco is nearest New  
York by airplane routes.Seattle is nearest by great-circle  
routes and by railroad.Los Angeles is nearest by auto-  
mobile road and by steamship.The trans-Pacific flyers shape  
their routes on great-circle routes,  
which take advantage of the round-  
ness of the earth.

The advantage of a great-circle

COURT HEARS WOMAN  
AFTER ELEVENTH MATECHICAGO, June 30. (Exclusive)—  
Frank T. Urban, a street car con-  
ductor, has filed a bill in the Su-  
preme Court asking annulment of  
his marriage to Mrs. Ruth Urban.  
Urban charges misrepresentation in  
that his wife declared she had been  
married only twice before, while  
he has discovered nine former hus-  
bands. He also alleges she is now  
suffering from an eleventh mate.The Urbans were married October  
15, 1927, at Crown Point, Ind. She  
confessed that she had previouslybeen married to Messrs. Pena and  
Zingarelli. They separated last  
April after Urban learned of other  
alliances with a roll call of Bascope,  
Ridley, Craddock, Sundell, Mustain  
and Shankelford, the petition states.  
The name of one ex-husband is un-  
known.Urban charges that his wife is  
now courting a man known as Pat  
Nagar. He also questions the legal-  
ity of her last two divorces. The pe-  
titioner states that the wife's real  
name is unknown to him.route can be shown by an imagi-  
nary route from New York to Eu-  
reka, Cal. Both cities are on the  
same latitude; that is, they are the  
same distance from the North Pole.Chebanse, Ill., is also on the same  
latitude, approximately 41 deg. The  
distance from New York through  
Chebanse to Eureka along the forty-  
first parallel of latitude is 3622  
miles. But this is not the shortest  
route to Eureka. A great-circle  
route, New York to Eureka, taking  
advantage of the tapering of the  
earth toward the North Pole, is only  
3560 miles, 62 miles shorter than the  
latitude route. A short-cut great-  
circle route to Eureka would run  
about seventy-five miles north of  
Chebanse, cutting through Wiscon-  
sin near Madison.The great-circle route from New  
York to Seattle runs near Elmira  
and Buffalo, N. Y.; Hamilton Ont.;  
over Lake Michigan at Charlevoix;  
across Northern Wisconsin, about  
25 miles south of Duluth, nearMinot, N. D., swinging up to with-  
in 25 miles of the Canadian bor-  
der and finally rounding off the arc  
at Seattle, 100 miles south of the  
border."Airplanes, like railroad trains,  
do not go straight for their goals,  
as the following comparison of the  
distances in miles from New York  
shows:"By present airplane routes:  
Los Angeles ..... 2774  
San Francisco ..... 2731  
Seattle ..... 3453"By great-circle route:  
Los Angeles ..... 2440  
San Francisco ..... 2540  
Seattle ..... 2383DESTROY GARDENS  
OKLAHOMA CITY, June 30. (P)  
Many gardens and lawns will be  
destroyed at the end of summer  
in Oklahoma oil camps. Nearly all  
vegetation, when dried, is consid-  
ered a fire hazard.Semi-Annual

# HAT ATTIRE

Copyright, W. J. Walsh

**O**FTEN our time hangs heavily on our hands, and mid-afternoon finds us yawning on a bench in the park, or wandering into shops to see what new gadgets the week has brought. And so an odd-looking camera case, which we are attracted to, turned out to be a pocket-sized (if you were to be wearing your oversized glasses). Furthermore, examination showed that it had an Orthophonic device which reproduced the full rich tone of the large cabinet models. It plays standard size records too. We rather expect to see these gadgets whenever we go this summer, as most people like to take their vacation with sound, and as a substitute for KFI these instruments should do nicely. So what!

AND some new pajamas we saw were of white sateen, having small blue polka dots, and trimmed with solid blue sateen at the turn-over collar, cuffs and sash. The beach pajama idea has really taken hold in a big way.

TEA dancing at the Ambassador's Cocoanut Grove has become quite an institution among the smart young set who come about on Saturday nights. We find the men there particularly well dressed, and first class in introducing new fashions, the latest of which is fresh from New York, that of wearing black and white exfoliors with blue lounge suits, with which are worn white linen waistcoats. The idea is a good one for summer, and with such a start will be quickly picked up for business and town wear during the warm season, as it has been in the East. The exfoliors are in better taste with straight ties, though we saw many which had the wing tip. The waistcoats are double-breasted, and black and white or grey and black ties are worn.

THE eastern race meets have revived the short covert topcoat, which hangs about two inches below the jacket, and is cut semi-shapely with deep side vents. The waist is semi-form-fitting, and the skirts flare and drape. Some styles have no outside pockets whatever, while others have large patch pockets, slightly slanting and with flaps. They will probably be seen on a few style leaders in the west this fall.

Hi Hat

## Explosion Sinks Customs Boat on Detroit River

INDSOR (Ont.) June 30. (AP)—An explosion today sank the Gray Ghost, a United States customs patrol boat, in the Detroit River opposite the Sandwich Shore line, where the boat was rescued after its patrol craft.

The Gray Ghost, the fastest cruising customs fleet in this area, developed engine trouble and was towed into the river for a trip in an effort to determine the cause of the trouble. On its return journey there was an explosion and the boat burst into

## ON PLANE HALTS ALTITUDE ATTEMPT

BANY (N. Y.) June 30. (P—)  
F. O. Dice, United States  
flyer, failed today in an at-  
tempt to establish a new world's  
de record for light aircraft.  
0,000 feet he was forced down  
forming on his plane. Dice  
try again tomorrow.

The better styles in beach pajamas have gone "modern" with a most pleasing abandon. The model shown here is of satene, printed in a whirl of colors, and fantastic modern designs. The trousers have cuffs and an elastic band. The jacket has a handkerchief, or cigarette pocket on the left breast and good buttons.

*At Desmond's*

Ordinarily we aren't very strong for Union Suits, but this new style illustrated is the exception. It has all the advantages of the two-piece athletic underwear, and in many respects is superior. For instance, there is no double thickness around the waist, the "swim suit" armhole allows the utmost coolness, and there is plenty of "give" at the crotch. It has no buttons, and is entered through the large neck like a swimming suit. We saw these garments in blue, pink and helio rayon.

Mullen &amp; Bluett

The double-branched sports jacket of blue flannel is being seen in increasingly large numbers at the better sports, on men who prefer the plain white flannel trousers. The model shown is the two-button English style with sweep peak lapels. The trousers are pleated, and an Optimo Panama

At B. H. Dyas

The latest idea in sports jackets is light tan tweed having a colorful homespun mixture. This is worn with matching knickers, or with trousers of shell tan English flannel. The hat is especially notable, being of light summer felt, almost white in color.

### At Matthew

*in Hollywood*

The camel's hair sports jacket, both in camel and natural tan, is being worn on many smartly dressed men. It is worn with the plain beige flannel trousers, and tan and white oxfords, such as the pair illustrated, which were made by Bennigsen. This jacket has patch pockets and belted back.

### At Silverwoods

A black and white illustration of a man standing in a bathroom. He is wearing a dark, long-sleeved bathrobe with a wide, light-colored shawl collar and a matching belt. Underneath, he wears a striped tank top and a necklace. He has his hands on his hips and is looking directly at the viewer. The background includes a bathtub on the left and a tall, ornate candle holder on the right.

A dressing robe which is proving popular in vacation because of its lightness and versatility is of solid blue Colanase moire, having gray trimmings, and cut with a shawl collar. Illustrated it is shown with athletic shirt of Swiss rib, and shorts of beige Colanase, with wide stomach band.

*At Roca Bros  
Hollywood*

This new yachting shoe was made originally for Douglas McLenn, and was quickly taken up by other well-known sportsmen. Its important feature is a heavy compressed felt sole which does not slip on wet decks, and which wears as well as leather. The uppers are of light-weight white calfskin.

*At Hamilton's*

## PLATICAS DE LOS LUNES

**POR EL PROFESOR RAMON GUERRERO**  
Encargado de la Sección Española de este diario

[illegible]

de sí mismo y la proporción "a" la proporción "a", iniciada en su uso por los escolásticos en francés. Dice la citada obra a ese respecto lo siguiente: De ninguna manera puede admitirse en buen castellano el uso de la proporción "a" para indicar la relación de una cosa con otra o de una máquina cualquiera: "por ejemplo, 'agua a vapor', 'motor a gas', no son otra cosa sino

mo Dicionario, la preposición "a" puede emplearse para flirteir el extremo a que se llega, tanto en expresiones como en frases completas. En las. Entrémosle a los dos ejemplos de la sabla obra citada: "Engañosa, a no caber más, debe ser la luz de los palacios, cuando hasta la misma Verdad toma en ellos un vicio de mentira" (M. de la Rosa, "Id. de la mente", I, 87); "Y no se vea el caso en el teatro todos los días, y siempre gusta, y siempre lo aplauden a rabiar" (Móran, "La comedia nueva", p. 3).

Ore de interés para mis lectores, transcribir algunas de las reflexiones que acerca del galicismo hacen don Miguel de Toro en sus obras, "Vocablo de la Lengua Española" y "Los Nuevos Derroteros del Idioma":

«No es moderna la plaga de gal-

tiempos que hoy día nos abruma: si  
mal es ya muy antiguo y haría falta  
mucho optimismo para creer que  
pueda ya vencerse por completo.  
Sólo podemos esperar por ahora en-  
cauzarlo mientras llega el día leja-  
no en que todos los escritores espa-  
ñoles y americanos aprendan su len-  
guaje, los libros castellanos, y en que  
el público, hartos ya de trágica es-  
tampa y culpas, tome conciencia de  
los editores españoles un poco más  
cuidado en la fabricación de su mer-  
cancia. Existen actualmente infinita-  
dad de obras que no puede uno  
prescindir de leer y que, por haber  
sido admitidas por un editor con

encomendó su traducción a cualquier infeliz sin cultura, pero poco exigente, no pueden dar idea de lo que sino en una lengua híbrida compuesta de castellano, de francés y de lonto.

Hace tiempo que los amantes de la pureza de la lengua vienen quejándose de la invasión de tan extrañalatránstranstran en nuestra literatura. Por desgracia, si sus adiciones han conseguido atajar algo los progresos del mal, puede decirse que el resultado obtenido es insignificante comparado con la extensión de la plaga.

La donosa fábula de Iriarte, "Los dos leros y la cotorra", parece escrita para que los niños aprendan a sin hoy día siguen pidiendo en francés los garbanos de la cila!

El sabio Comany, que tan valientemente se enfrentó a los críticos que le insultaban entonces, como hoy, el idioma, escribió:

"Esta, dignísima fascinación, ha curado a los niños, que ha lo de grado rápido, de los defectos de propia lengua, cuya pureza y hermosura heppes manchado con voces extranjeras y avarias, hasta desfigurar las palabras, como si quisieran que los lequeros exóticos, obscuros e insignificativos, diamantes y opuestas a la fénice del castellano castizo, fueran de la disonancia esencial" (tomo I).

Antes se había lamentado de la "falta de pulcr del immortal" (tomo I).

que guarda no poca analogía con ciertos "escritores" modernos, que también abandonan los estudios para meterse a literatos:

— Nada conviene tanto de la dificultad que hay en traducir bien como la multitud de traducciones que nos sobran; y cuán pocas son dignas, las que merecen llamarse buenas, pero ni aun tolerables! En los tiempos que corren, es desdichado de la madre que no tiene un hijo traductor.

En mi próxima Plática seguiré transcribiendo algunas de las observaciones del señor de Torn.

## Brush's Estate to Aid Science

CLEVELAND, June 30. (AP)—Charitable and scientific groups and employees will benefit to the extent of several million dollars from the estate of Charles Francis Brush, philanthropist and inventor.

Specific bequests amounting to more than \$2,750,000, were made in the will filed for probate yesterday and the balance of the estate, an unguessed amount, will go to the Brush Foundation, established last summer by the inventor of the arc light, for the betterment of

CLEAN BORDER  
PLAN SKETCHEDChief for Patronage Agencies  
Urged by McKellarPolitics Blamed for Laxity  
on Mexican LineSenator to Propose Change  
to Civil Service

SAN ANTONIO (Tex.) June 30. (P.)—Senator McKellar, Democrat of Tennessee, member of the Senate committee investigating Republican patronage in Texas, said today that conditions disclosed in the hearing here have convinced him that all border patronage agencies should be placed under one officer who would be directly responsible to the President. Senators McKellar and Brookhart, Republican of Iowa, committee chairman, left here tonight for Dallas, where the hearings are to be resumed tomorrow.

Republican National Committee Chairman R. B. Cragger of Brownsville, whose actions have been attacked by McKellar, is to go to Dallas for the hearing. He issued a statement today in which he reiterated "bitter indignance" at the manner in which Senator Brookhart is conducting the investigation.

**BROOKHART BRIEF**  
It seemed probable the Dallas session would last but one day. Senator Brookhart declined to make a detailed statement, saying only: "The sessions here have been very profitable."

The Tennessee Senator's statement declared that "the Mexican border near here has long been the scene of innumerable law violations."

It is no criticism of the border country to say this. It is simply true of all border countries. "The facts brought out by our committee will, I hope, enable the Congress to pass remedial legislation. It is apparent to me that all Federal activities on the border should be placed under one responsible head who should spend all of his time on the border. The customs, Department of Justice, prohibition, immigration forces and all other Federal agencies should be under the control of this one responsible head and all reports made first to him and through him forwarded to the respective departments."

"His men should be under civil service but under civil service held for border service alone. There are many qualities other than those of reading and writing needed in employees in this service. You must have a real 'he man' at the head and every subordinate must be of the same variety and must be incorruptible."

**PLAN AIR SHOW**  
LOUISVILLE (Ky.) June 30. (Exclusive)—Invitations have been issued to more than 100 outstanding war-time aviators to take part in the big aerial show planned as one of the events on the program of the sixteenth annual national convention of the American Legion to be held here September 30, October 1, 2 and 3.

GOOSE LIKES  
HOT PUPPIESMystery of What Wild Goose  
Chased on Wild Goose  
Chase Is Solved

PLUSHING (L. I.) June 30. (Exclusive)—The problem of what the wild goose chased on the wild goose chase was solved here today. It was not dogs. John Maurer, a life-guard on the North Shore, had retrieved an exhausted northward flying goose from the sound's waters, and when a crowd gathered about the bird, one had proffered it a hot dog sandwich. The goose stretched its adequate neck, gurgled mustard, waterkrout, roll and "dog" and looked around for more. A second frankfurter went the way of the first. Somewhat revived, the visitor then took a shower bath and retired for a nap as the guest of the life-guard.

**BILL TO BE OFFERED**  
The present state of law enforcement as disclosed by the hearings is indeed deplorable. Jealousy between bureaus and individual groups, nonobservance of the laws by some of the law officers themselves, failure to prosecute law violators, I, not connivance with them, and a general spirit of disregard of all law seems to permeate all of the Federal enforcement bodies. The entire present political system as practiced on the border is subversive of good government and must be remedied. As long as these appointments are held as political patronage, so long will the present conditions of lawlessness prevail.

"Under a proper system of law enforcement, doing away with the wholly political system now in vogue, there is no reason why law violations arising on the border may not be at least reduced to a minimum. I shall introduce a bill along these lines when I return to Washington."

**PLAN AIR SHOW**  
LOUISVILLE (Ky.) June 30. (Exclusive)—Invitations have been issued to more than 100 outstanding war-time aviators to take part in the big aerial show planned as one of the events on the program of the sixteenth annual national convention of the American Legion to be held here September 30, October 1, 2 and 3.

BRITISH TO END  
RHINE REGIMEMail Says Occupation Army  
Will be Withdrawn

LONDON, July 1. (P.) (Monday)—The Daily Mail this morning said the British Army of Occupation in the Rhineland may evacuate the Rhine territory immediately. Orders of a charac likely to bring this about were sent to the Rhine army headquarters at Wiesbaden during the week-end.

The Daily Mail added that if the British army does not immediately evacuate the Rhineland it will at least be withdrawn en bloc instead of by detachments as had been expected.

PEKING MERCHANTS WAR  
ON LEGALIZED ROBBERY

PEKING (China) June 30. (Exclusive)—In any other so-called civilized country in the world today if a picket entered the store of a merchant, appropriated goods from the shelves, and walked out of the store, that picket would be jailed as a common thief.

But not so in Peking, for the Anti-Japanese Boycott Association, which refuses to disband at the orders of the government, and which openly defies the police, continues to search Chinese shops for Japanese-made goods, to confiscate such goods, to "fine" the store owners, and even to imprison them if they do not pay their fines on the spot.

The merchants of Peking, having appealed in vain to the local police, the local mayor, and even to the Nanking government, are now taking affairs into their own hands. They have just organized a Self-Defense Volunteer Corps, and, acting under the Chinese Chamber of Commerce, every shop in Peking is instructed to "contribute one man to this force, which will drive away the pickets who steal from us."

The merchants are also considering using these pickets to drive away tax collectors, for the government has just instituted a new "inspection tax" under which all exports must, before shipment, be inspected for quality and packing. In some cases this inspection tax amounts to as much as 68 per cent of the value of the goods.

**TRAVELING AMERICANS**  
LONDON, June 30. (P.)—Americans last year made up one-third of the alien visitors to England.

ANTIDRYS ISSUE  
LIQUOR FIGURESValue of Rum from Canada  
Set at \$30,000,000

WASHINGTON, June 30. (P.)—The association against the prohibition amendment estimated today that Canadian liquor worth \$30,000,000 is being delivered annually in the United States and that \$3,000,000 a year has been paid in graft to United States agents by rum-runners.

The figures are based, the association says, upon an investigation lasting more than a year. It is contended that Canada receives \$8,000,000 annually in excise taxes on liquor exported to the United States.

# Now 7th Largest in the Nation

With resources of 40 million dollars, Pacific States Savings, the largest institution of its type in the West, has now risen from eighth to seventh place among the 13 thousand building and loan associations in the United States.

This advance is significant because it indicates ever-increasing public recognition of this principle that Pacific States Savings has steadfastly followed for over 40 years: The safety of our savers' funds is our first consideration.

The Statement of Condition presented here, and the five outstanding factors of stability it reflects, demonstrate how rigorously we apply this principle for the protection of our customers' funds.

## STATEMENT OF CONDITION

as of June 29, 1929

ASSETS	
LOANS	\$36,046,815.89
FURNITURE AND FIXTURES in various offices of the Company, office building, lot, etc., valued at over \$59,000, carried on books at	1.00
OTHER REAL ESTATE appraised at over \$15,000, carried on the books at	1.00
INVESTMENT CERTIFICATES of other California Building and Loan Associations	45,000.00
UNITED STATES BONDS and Miscellaneous Bonds approved by the Building and Loan Commissioner	1,238,539.47
ACCRUED EARNINGS	331,650.27
SUNDRY ACCOUNTS RECEIVABLE, prepaid expenses and deposits	37,770.28
CASH ON HAND AND IN BANKS	2,563,504.38
<b>TOTAL</b>	<b>\$40,263,882.29</b>
LIABILITIES	
TO HOLDERS OF CERTIFICATES FOR SAVINGS (over 54,000 individuals and firms, corporations, title insurance and trust companies, banks, etc.)	\$35,284,998.42
TO BANKS: Bills Payable and Re-discounts	NONE
TO BORROWERS: On construction as building progresses and on other loans awaiting final closing	1,715,617.87
TO ESCROW DEPOSITORS AND SUNDRY CREDITORS	193,945.76
TO UNDERWRITING FEES: Collected but not yet allocated and transferred to savers	1,395,652.38
TO STOCKHOLDERS: (safeguards holders of certificates for savings)	
(a) Paid up Guarantee Capital Stock (non-withdrawable)	\$382,300.00
(b) Prepaid Capital Stock	\$100,000.00
(c) Surplus, Reserves and Undivided Profits to June 29	\$1,191,167.86
<b>TOTAL</b>	<b>\$40,263,882.29</b>

On the basis of such conservatism, strength and liquidity as are demonstrated here, more than 53 thousand prudent individuals, firms, corporations, insurance companies, title companies, trustees, administrators, legal guardians and banks have placed funds with Pacific States Savings. On this same basis, we solicit your funds.

## GAS IN THE INDUSTRIES

Removing bread from gas-fired travelling oven in Safeway Bakery. It is 96 feet long and 9 feet wide. Dough starts at one end, is carried through on a travelling belt, and emerges at the other end as baked bread.

## III.

## L. A. Food Producers Use Natural Gas

THE MODERN PLANT and warehouse of Safeway Stores, Inc., in Los Angeles, shows how the food industry "does it better with gas." This great plant, serving the company's 420 stores in this section, is gas-equipped throughout.

## Gas Does It All

Here natural gas bakes 90,000 loaves of bread a day, as well as cookies and doughnuts; cooks 40,000 pounds of candy a day; roasts 13,000 pounds of peanuts a day; pasteurizes milk and cream; fires steam boilers; and is used everywhere else in the plant where heat is necessary.

## Safeway's Testimony

"We use natural gas," says Safeway Stores, Inc., "because it is the most efficient and economical fuel for our needs."

Other food product firms of the community apparently agree with Safeway Stores, for natural gas is used by such representative concerns as the Bradford Baking Co., Mackechnie Bread Co., Davis Standard Bread Co., Langendorf Baking Co., Continental Baking Co., California Dairies, Inc., Adair Creamery Co., Coca Cola Co., Maxwell House Coffee Co., X L N T Spanish Food Co., Triangle Candy Co., L. A. Biscuit Co., Pacific Coast Biscuit Co., Kahn-Beck Co., California Sanitary Canning Co., John Morrell Packing Co., and many others.

## Engineering Service Available

Proper combustion is an engineering problem. Our Industrial Engineers will be glad to study the combustion question in your business and give you the benefit of their experience and advice. You will be under no obligation. Call the Commercial Engineering Department—Faber 0141.

## FIRST TRAGEDY ON NEW ROAD

Santa Monica Boy Drowned Early Sunday Morning

Ventura Officers Unable to Revive Lad

Oil Worker Killed on Rincon Highway

VENTURA, June 30.—Less than twenty-four hours after its opening, the new Coast Highway between Santa Monica and Ventura claimed its first victim among the pleasure-seekers traveling it. Charles Hayes, a Santa Monica boy, fell at 5 o'clock this morning from a large rock where he was fishing in company with his parents and several brothers and sisters, and was drowned.

The youth was in the water for about ten minutes before he was pulled out. Sheriff Ed Hearne and Howard Druley, from this city, hurried twenty-five miles to the scene and found him still living. They worked over him for two hours but finally had to abandon hope.

They were unable to locate either a doctor or a pulmonologist at the time.

The deputies report that, even at this early hour the new scenic highway, opened yesterday forenoon with ceremonies in which Gov. Young and other officials took part, was crowded with automobiles bringing people from Los Angeles county into this section.

FOG RESPONSIBLE FOR AUTO CRASH

VENTURA, June 30.—B. S. Dix, Standard Oil Company employee of this city, met an instantaneous and terrible death early this morning on a foggy stretch of the Rincon highway west of this city. Dix was driving toward Santa Barbara at a coupe which was well over a south-bound truck and trailer.

For some reason he swerved too close to the approaching machine and sideswiped the truck's service motor. His whole head was jarred in and he died immediately.

A witness of the accident reported to Deputy Sheriff Ed Hearne that the truck was on the right side of the pavement and that its lights were burning properly. The accident occurred about 2 a.m. and the thick fog which was prevailing at the time was blamed for the crash.

## Valley Cities to Advertise Their Charms

ALHAMBRA, June 30.—A plan to advertise the San Gabriel Valley, including twenty-two communities from Alhambra to Pomona, will be formed at a dinner to be held here in the near future to which city officials and representatives of chambers of commerce, service clubs and other organizations in the various towns will be invited. At this meeting it is expected a permanent committee will be named to carry out an extensive publicity campaign.

The Alhambra District Realty Board, through its publicity committee, has initiated the movement having been working on the plan for several months. It has received the approval of leading real estate men and other business leaders. Monrovia, Arcadia, Glendora and other San Gabriel Valley cities, it is declared.

A \$50,000 fund for display advertising in newspapers has been recommended. Members of the Alhambra District Realty Board at their last meeting pledged approximately \$2000 toward such a fund. A publicity campaign setting forth the advantages of the San Gabriel Valley would materially benefit each community, it is pointed out.

## YUCAIPA FRUIT SEASON STARTS

YUCAIPA, June 30.—Yucaipa swung into the big picking and fruit-packing season this week with the shipments of "Red Bird" peaches. For several years now cherries have been ripe but the fruit growers do not consider that the long small-fruited season is open until the "Red Bird" cling peaches start for market.

Handling of peaches will be under way for more than four months, as the late peaches are not packed until November. Picking of the big pear crop will be handled, apricots and plums will be shipped and a start will be made on the apple crop. During the next six months more than 1,000,000 boxes of delicious fruits will be shipped from Yucaipa.

## CHAMBER SEEKS CO-OPERATION

ONTARIO, June 30.—Seeking to eliminate a competitive spirit said to be prevalent among civic, patriotic and charitable organizations of the community, the Chamber of Commerce has taken the lead in bringing the organizations into a more co-operative union. Tuesday evening each organization here is asked to have representatives present at the chamber to become better organized for community betterment. Conflicting dates will thus be eliminated.

## NEW SCHOOL GYMNASIUM

ALHAMBRA, June 30.—The Board of Education has authorized an additional appropriation of \$10,000 for the proposed girls' gymnasium of Alhambra High School, \$75,000 having been previously set aside for the building. Extension of the girls' physical education work is planned by Mrs. E. B. Crosswhite, director of the department. Architects are drawing plans for the structure which will be erected on the school property at the rear of the main high school building.

## THIS DESERT TALE SOUNDS FISHY

Motorist Hit by Flying Herring on Mojave Wanted Man Who Made It Fly Held for "Liable," and That's the Truth

BY CHESTER G. HANSON

Times Staff Representative

INDEPENDENCE, June 30.—The phenomenon of a flying fish assaulting an automobilist out in the heart of the Mojave Desert sounds too incredible, but when it is given the color of authenticity by public officials it cannot be ignored.

The story as related by George Francis, deputy district attorney of Inyo county, and by Sheriff Tom Hutchinson of that county, is as follows:

It was only the other night that Hutchinson at the Sheriff's office called the arrival of the car described. An hour or two later the car came along and was halted. The driver was a man from Bakersfield and apparently was in the best of spirits.

Soon the second car appeared and the driver, a man who spoke in foreign accents, told the officers that

as the first car passed him out on the Mojave he was struck in the face just below the eye by some object that came flying through the air. When he picked it up from the floor of his car he was astounded to discover that it was a dead fish!

Well, it was conceivable that a fish could die on the Mojave in mid-summer, but it wouldn't fly of its own accord, dead or alive, hence somebody in the car that just passed must have thrown it at the complaining witness. Thus he reasoned as he drove along in the night, and the more he thought it over the madder he got. Finally he called the Sheriff and demanded the arrest.

Hutchinson and Francis went in to a huddle and came out of it with the announcement that under the circumstances there was little that could be done about it.

"Well, it seems to me I should have him arrested for liable," urged the late complainant.

"For liable?" exclaimed Francis. "What do you mean liable?"

"Why," insisted the man indignantly, "he was liable to put my eye out with that fish!"

Yes, many weird tales have come out of the desert.

## WOMEN IN SCIENCE

Many of Fairer Sex Engaged in Research Work at Mt. Wilson Observatory

PASADENA, June 30.—Indicating the increasing part played by women in scientific research, it was learned today that there are seven college-trained women on the Mount Wilson Observatory staff.

Miss Louise Ware, a Vassar graduate, is working with Dr. Charles E. St. John in connection with studies of standards of wave lengths and in the revision of Rowland's Preliminary Table of Solar Spectrum Wave Lengths.

Miss Cora Burwell, Mt. Holyoke graduate, has published papers with Dr. W. B. Adams, director of the observatory, on the flash spectrum of the sun. She is now assisting Dr. Paul W. Merrill in stellar research.

Assisting Prof. F. H. Seares in research work on the distribution of the stars, are Miss Mary C. Jorjart, Miss Myrtle Richmond and Miss Nanna Marsh. Miss Joyner and Miss Richmond are alumnae of Smith College. Miss Marsh is a Junior College graduate. Miss Elizabeth Sternberg, graduate of the University of California, is working with Dr. S. B. Nicholson on sunspot activity, and Mrs. Katherine P. Kaster, another Berkeley graduate, is engaged in stellar research.

## Month of Roses is Busy Time for Dan Cupid

SAN DIEGO, June 30.—The "merry" month of June set a new high mark for marriage licenses, returns from the license bureau showed when a clerk was asked for the month's "business" brought to a close in the County Clerk's office.

A total of 365 licenses was issued in the month closed today with several branch offices of the department in outlying districts yet to be heard from. The 263 mark has been exceeded only three times in the county's history.

June of 1927 had a total of 273 marriage licenses, December of 1925 had 276, while "war brides" married 1917 totaled to 263—the high mark for all time in this county.

The June issue brings total for the first half of the year to 913 as compared with 809 for the first six months of 1928 and 1177 for the first six months of 1927.

## ROMANCE INVADERS FINANCIAL CIRCLES

REDONDO BEACH, June 30.—It is not often that a financial institution can have an announcement of the secret marriage of one of its officers to lend a romantic glow to the formal opening of its new home as did the American Mutual Building and Loan Association here, whose building reception last night took place simultaneously with the announcement of the marriage eight months ago of the assistant secretary, Selby Venable and Miss Helmer, daughter of Prof. and Mrs. F. C. Reimer of the Southern Oregon experiment station at Kient, Or. The marriage took place last November while the young people were students at the University of Oregon and both resuming their studies successfully kept it secret until after Mr. Venable's graduation a few weeks ago. Mrs. Venable arrived by airplane yesterday to join her husband in time for the announcement.

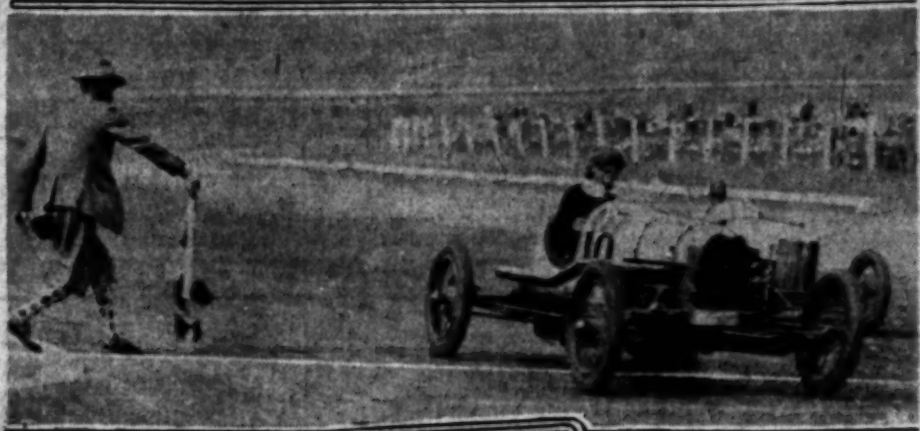

## RUSSIAN GENERAL IN ALHAMBRA JAIL

ALHAMBRA, June 30.—Alhambra police are no respecters of Russian general.

Late last night officers came upon an automobile, the occupant of which had apparently lost his bearings. They took him to the station where he gave his name as Gen. Alexander Ikonoskoff, and his address as 3223 Monroe Avenue, Hollywood. He was booked as drunk. He was still in jail today, held on \$25 bail.

Ikonoskoff, who is 49 years old, old, was in the Russian army during the World War and fought in many major engagements, being wounded several times.

## Racing Cars in Final Tests

Above: Starter Fred Wagner giving Mel Kenenly, in Number 18, and Walt May the starter's flag at a recent Banning dirt track race. Both of these drivers will be among those present at the annual Fourth of July program at the Banning American Legion Speedway. Below: Henry Jaques in No. 30 and Jimmie Sharp in a spirited brush in the main event of the dirt racing event at Banning last Memorial Day. Both of these pilots have entered the annual Fourth of July event on the Banning Track.

## CARS IN PRACTICE TRIALS

Well-Known Speed Drivers to be in Races At Banning Thursday

BANNING, June 30.—First practice trials preliminary to the annual July Fourth dirt-track racing program of the American Legion Speedway here this Thursday, are scheduled to start tomorrow at the local oval, with a number of leading A.A.A. drivers planning to try their first warm-up spins tomorrow afternoon.

Secretary Harry F. Hunt of the local oval today reported the track in the best condition it has ever known, and everything in readiness for the 1-day event, including added facilities installed by the Banning officials to care for the record attendance anticipated.

Among the drivers expected to arrive early this week for practice preliminary to the races are such well-known pilots as Francis Quinn, Mel Kenenly, Nick Martino, Walt May, Jimmie Sharp, Speed Hinkley and Carl Ryder. Any one of these drivers is conceded an excellent chance to capture first honors in the main event here on the "Pond."

With rivalry particularly keen this year in the race for the 1929 auto racing championship of the Pacific Southwest, and the Simplex Piston Ring Trophy, symbols of this honor, the fastest competition in the history of the local oval is expected when the leaders in the trophy quest clash here.

## INJURIES FATAL TO VERDUGO BOY

GLENDALE, June 30.—Charles Baker, 12-year-old youth who was injured yesterday in a collision with an automobile on Verdugo Knolls, died at the Physicians' and Surgeons' Hospital here at 8:30 a.m. today.

Detective Lieutenant Blake and Officer Drew, who investigated the accident, are of the opinion that the collision was unavoidable on the part of the driver of the automobile, the latter asserted.

Young Baker, the officers report, was coasting down Verdugo Knolls on a skooter when he ran into a car driven by Richard Nichols, 15-year-old son of Mr. and Mrs. T. B. Nichols of this city.

With Nichols at the time was Jess Willard, Jr., son of the former heavyweight champion, who was first erroneously reported as the driver of the machine.

Baker, who resided with his aunt, Mrs. V. H. Hubert of 1935 Verdugo Knolls, suffered a fractured skull and other injuries in the accident. Pending an inquest, which will probably be held tomorrow, funeral arrangements for Baker were not announced today.

## HIGH LIGHTS OF HISTORY 1381

The Story of the World War 151—Pershing's Plan of Action.

ON REACHING FRANCE IN JULY, 1917, GENERAL PERSHING FOUND THE ALLIED WAR LEADERS GREATLY DEPRESSED OVER THE SITUATION ON THE WESTERN FRONT. THEIR ARMIES HAD SUFFERED APPALLING LOSSES, AND THEIR BEST EFFORTS TO BREAK THE GERMAN TRENCH BARRIERS SEEMED FUTILE.

## EUROPEAN AVIATOR AT SAN DIEGO

German Flyer in Baby Plane Visits Landing Field in Southern City

SAN DIEGO, June 30.—Baron Koenig Warthausen, 23-year-old German aviator who last year won the Hindenburg cup for his non-stop flight from Berlin to Moscow, a twenty-horse power plane and then decided to go back to Germany the long way around the world is in San Diego today.

He arrived here late last night from Los Angeles in an airplane. It sounded as if a motorcycle was popping through the air when the young Baron circled over the city. The little engine, weighing only ninety pounds, is a two-cylinder affair and sounds just about like a motorcycle in action. Accompanying the Baron was a blue-eyed German, which has accompanied him since he visited in San Diego on his way back to Germany. On account of the cat the Baron had some trouble finding quarters in San Diego's caravansaries. The hotels would take the Baron, but not his cat, and the youthful flyer declined to be separated from his mascot.

The Baron speaks half a dozen languages and converses fluently in English. He left Berlin one day last summer for Moscow. He had only seventeen hours in the air and had never been aloft longer than thirty-five minutes at a time. His little plane bore him from Berlin to Moscow, 1200 miles in all, the more than fourteen hours, and during this time he never touched the ground. Finding that flying was very nice, as he puts it, he left Moscow and went to Persia. Then the air lanes led to India and it was in India, on Chitragan, that he learned he had won the Hindenburg Cup and a cash award of \$2500.

From India he went to Japan and shipped his plane to San Francisco, where he arrived early this month. Then he came down to Los Angeles yesterday to visit San Diego. He says that the gasoline of the San Francisco flight cost him approximately \$2, as he averages about fifty miles to the gallon.

His machine is a low-wing Klemm-Daimler monoplane with a wingspread of thirty-six feet. With the engine it weighs about 600 pounds. The gasoline tanks hold forty gallons, theoretically enough for a 2000-mile flight. The plane at times has attained altitudes of 15,000 feet, the Baron says, and it lands at only twenty miles an hour.

Baron Warthausen dropped his plane to earth at the Ryan Airport on Barrett Avenue, where it is to remain during his stay in San Diego. He plans to leave here Wednesday on the way east, stopping at St. Paul, Minn., Chicago for several days, and will ship his plane from New York to Germany about the end of this month.

## PASADENA LEGIONNAIRE SUPPORTED

Robert M. McCurdy Strong Candidate for Area Commander

PASADENA, June 30.—Robert M. McCurdy, adjutant of Pasadena Post No. 13, American Legion, is receiving strong support for election as commander of the Fourth Area, a Legion district embracing practically every post in Southern California.

Lamanda Park Post No. 290 has instructed its delegates to the State Legion convention at San Diego to vote unanimously for the local man and it was learned today that McCurdy has won the unanimous backing of six other posts, indicating that his election is almost a foregone conclusion.

The Fourth Area comprises Legion districts sixteen, seventeen, eighteen, nineteen and twenty which include 168 posts, representing a total of 18,000 Legionnaires in Los Angeles, Santa Barbara and Ventura counties.

Although McCurdy's health was impaired as the result of being gassed while serving with the American infantry in France, his untiring efforts are credited with the official recognition of Post No. 13 as the "best Legion unit in the United States" last year.

The local Legion adjutant is past adjutant of the Los Angeles County Council, a director of the Legion Bulletin Corporation and chairman of the eighteenth district convention committee.

As secretary of the Bush Garden Fund for Disabled Soldiers, he was responsible for the administration of a fund that totaled more than \$100,000.

He is a member of the Poothill Breakfast Club, Elks, Masonic fraternity, and a member of the board of directors of the Pasadena Optimist Club.

## Big Crowds in Mountains

MENTONE, June 30.—An exceptional week-end crowd in the mountains has brought smiles to the faces of the resort owners. Indications are the Fourth of July crowd will be the largest in history. The warm weather has sent the people to the hills and a check-up today showed big crowds at every resort.

Forest Home, Seven Oaks Camp, Angeles and the Bear Valley resorts are filled. Bear Valley had more than 6000 persons today, which is a large week-end crowd.

The Fourth of July will no doubt be a big time for many will remain in the city playgrounds, issued from Thursday over Sunday. Redlands is planning a big celebration at Valley of the Falls, where the new city playgrounds, issued from the government, are to be dedicated with a barbecue and picnic.

## "Tired of Life," Says Death Note

SANTA BARBARA, June 30.—Jack Turner, 25 years of age, Long Beach oil worker, was found dead in his bed in a rooming house here this morning, a suicide.

He shot himself twice with a small 25 caliber revolver, according to the police. He left a note giving the address of his parents, Mr. and Mrs. Harley Turner, 1028 New Park avenue, Long Beach, and declaring he was tired of living. "Nobody to blame but myself," the note said.

## BANK CLEARINGS GAIN

HUNTINGTON PARK, June 30.—Bank clearings of the Huntington Park Clearinghouse Association show a gain of more than \$8,000,000 for the first six months of the present year as compared with the first six months of last year. The total for the first half of this year is \$24,028,873.75, as compared with \$15,225,791.49 for the first six months of last year.

## COMMISSIONERS DUE IMPORTANT QUESTIONS

ALHAMBRA, June 30.—Although the matter of the \$175,000 received by the city for its share in the bridge sold to a Los Angeles firm, placed on the ballot as a referendum at the municipal election this month, the City Commissioners will decide the matter at a meeting of the city council.

Tompkins has ruled that the four propositions submitted for the election of the city council will be decided by the voters. He recommended the money be retired across bonds.

## CORPORATION PETITION UP TO SUPERVISORS

LOMITA, June 30.—Following on the incorporation filed with the Board of Supervisors a month ago, the City of Lomita is now before the Board of Supervisors. The petition asking that the city be annexed to the city of Lomita.

## COLLEGE GIRLS HERE FOR MEETINGS

Pi Beta Phi Group at Pasadena First Regular Session Schedule Today

Special Train Brings from East

PASADENA, June 30.—Late this afternoon, on a special train, a group of 200 eastern members of the Pi Beta Phi chapter registered at the Hotel Pasadena where the organization's ninth biennial convention is being held.

Met at the local Union depot, the delegates from the Pi Beta Phi chapter of the University of California, Stanford chapters, and other delegates who boarded the train when it left Chicago and arrived here at 10 o'clock and cooled off in the hotel swimming pool.

## BEGINS TODAY

At the first regular business meeting tomorrow morning, the delegates will elect officers and a permanent executive committee. The delegates are expected to be in attendance according to Miss Amy Holsinger, chairman of the convention, who is expected to be present.

Founded in 1897, Pi Beta Phi has chapters in 15 states, 10 foreign countries, and 100 colleges and universities. It is an exclusive society, with membership limited to women who are college graduates or who are expected to be college graduates.

The principal convention works are forecast for tomorrow morning, when the delegates will elect officers and a permanent executive committee. The delegates are expected to be in attendance according to Miss Amy Holsinger, chairman of the convention, who is expected to be present.

One faction is expected to petition the University of California to have a Pi Beta Phi chapter in the University of California on the ground that such a chapter would prove that the school has no narrow religious bias.

Resides National President, Onken, other national officers are in charge of the convention. The delegates are expected to be in attendance according to Miss Amy Holsinger, chairman of the convention, who is expected to be present.

## WABASH PLANS TRUNK SYSTEM

Nine Railways Involved in Proposal

Application to be Filed at Washington Today

Will be Fifth Unification of Eastern Lines

WASHINGTON, June 30. (AP)—A plan for a fifth trunk line railway system in the East is to be filed tomorrow with the Interstate Commerce Commission by the Wabash Railroad.

The proposal, details of which were made public tonight by the Wabash, calls for the acquisition of control either by lease or purchase of stock of nine railroads and joint interest in other carriers.

This would provide a new trunk line with western terminals at Chicago, St. Louis, Kansas City, Omaha and Des Moines, and eastern terminals at New York, Philadelphia and Baltimore.

The four trunk lines now established in the East are the Pennsylvania, New York Central, Baltimore and Ohio and the Chesapeake and Ohio. Two of these, the Baltimore and Ohio, and Chesapeake and Ohio, already have submitted plans to the commission for consolidation with other railroads.

Control of the following lines is sought by the Wabash: Lehigh Valley, Wheeling and Lake Erie, Pittsburgh and West Virginia, Western Maryland, Lehigh and New England, Akron, Canton and Youngstown; the Erie, Erie and Eastern; the Toledo, Peoria and Western; and the Chicago and Illinois Midland.

This additional system is proposed, the Wabash announced, "in the belief that no four-system grouping in eastern territory, such as is proposed by certain of the railroad competitors, is humanly possible without such merging of strictly competitive lines, such suppression of established identities in transportation service, such disruption of existing channels and such disruption of trade adjustments as to defeat fundamental safeguards of the Transportation Act."

## British Miners' Eight-Hour Day to Be Reduced

LONDON, June 30. (Exclusive)—One of the first steps to be taken by the new Parliament will be the repeal of the eight-hour law. It is understood this step was assured by the Prime Minister to an executive of the Miners' Federation, when he met the British Cabinet at a special session to which he was summoned by telegraph.

The repeal of the act, will have the automatic effect of putting the miners' working hours back to the provisions of the severance act of 1920, thus increasing the cost of production from 50 cents to 75 cents per ton, while the effect upon export business will be severe, especially in South Wales and Durham.

# JULY DELINEATOR Out Today!

On sale at all newsstands and in stores of progressive merchants who have Butterick departments.

We venture to say that 10 cents never before bought anything that you will enjoy quite so much as this big, beautiful July number of Delineator. Here you will find clearly disclosed the reasons why

Delineator circulation has increased by more than three quarters of a million within a year so that more than two million women now buy Delineator regularly every month.

Setting new standards of inspiring fiction—John Galsworthy, Kathleen Norris and Edith Wharton in a single number—with style and beauty that others seek in vain to imitate—is it any wonder that Delineator today is the world's fastest growing women's magazine? Just buy a copy of this July issue—and you will know why Delineator is so much discussed, so heartily praised and so often quoted wherever modern women meet.

## JOHN GALSWORTHY "Midsummer Madness"

A love-story, brief, tragic and intense as a midsummer thunderstorm—by England's foremost writer—telling how George Forsythe, who had failed in everything else, in a single day both won and failed in love.

## WM. LYON PHELPS "Gene Tunney Shows The Way"

Yale University's distinguished Professor of English in an unconventionally inspiring article, tells Delineator readers why the career of the world's champion boxer illustrates the ideal attitude of a boy towards life.

## KATHLEEN NORRIS "Passion Flower"

In this honest, far-seeing novel on the consequences of divorce, America's best-loved author tells in her inimitably tender human way the dramatic story of a girl who gladly sacrificed all to love—but love.

## EDITH WHARTON "Hudson River Bracketed"

This internationally famous novelist writes with vivid insight of the thrilling part that woman's inspiration played in a young writer's struggle for fame and recognition.

## H.C. BAILEY "The Football Photograph"

Our favorite detective, Mr. Fortune, appears in another rattling good mystery story with a sinuous trail leading from the murderous robbery of a famous jeweller to the trapping of the criminal in a lonely country inn.

## PARLEY ON DAM POWER SOUGHT

Dern Urged to Call Six-State Conference on Rates

Utah River Board Member Advances Suggestion

Views Set Forth Following Talk With Governor

SALT LAKE CITY, June 30. (P)—Gov. Dern of Utah was urged to call a six-State conference for the purpose of discussing power rates at Boulder Dam and the further development of the Colorado River.

W. R. Wallace, member of the Colorado River commission for Utah, conferred with Gov. Dern and, following the conference, Mr. Wallace said:

"I believe the Governor should call the conference at the earliest possible date for the following reasons:

"Utah consented to the ratification of the Colorado River compact, having in mind the promise in the Boulder Dam Project Act that power would be sold with a 'view to obtaining reasonable returns.' Utah acted on the assumption that the purchasers of power are to pay an actual competitive price.

"California must not be permitted to handicap the development of her sister States by reason of a very cheap supply of power given her by government subsidy.

"The States in conference should determine for themselves whether

## KING AWAITED IN LONDON

Excited City Gaily Decorated for Return Today of Monarch After Long Absence

LONDON, June 30. (P)—The royal British standard, signifying that the monarch is in residence, will wave again over Buckingham Palace at noon tomorrow for the first time since King George was carried thence five months ago to recuperate at Bognor from his long illness.

London tonight is anticipating the return of the sovereign to his London home and to health, its millions of inhabitants being prepared to give him the warmest of welcomes.

**DRIVE PLANNED**  
King George will drive from Windsor Castle and appear in the city in the royal automobile. At the royal borough of Kensington he will enter a horse-drawn carriage and make a triumphant return to Buckingham Palace.

His Majesty has recovered completely from the slight setback he experienced at Windsor last month and will return in good health in time for the thanksgiving service for his restoration to health at Westminster Abbey next Sunday.

To this service the ceremonial drive from Kensington to Buckingham Palace tomorrow will be a fitting prelude. The King will change

the contract to be entered into by the Secretary for the sale of power is fair to all concerned, and advise the Secretary of their findings."

It was announced in official circles here today that an agreement was made at Santa Fe in January by which the six States of Utah, California, Colorado, New Mexico, Nevada and Wyoming would send representatives to a conference such as now appears likely. It was also said that at a conference between President Hoover, the Secretary of

the Interior, Gov. Dern and Mr. Wallace it was agreed that the call for the meeting would be issued by Gov. Dern after the 21st inst., the date when the Boulder Dam Act became effective.

**MANY DECORATIONS**  
Despite intermittent showers and the threat of more rain tonight, the stretch of Piccadilly opposite the lovely green park and the roadway leading past St. James Palace through the Marlborough Gate to the Mall are gay with bunting in honor of his passage.

The American flag is conspicuous among the flags of all nations which deck the fronts of the various public and club buildings along the route His Majesty's carriage will follow. The spirit of the welcome is typified by the inscription "long life and happiness" on a large blue streamer over one doorway.

King George has been at Windsor Castle since he left his seaside home at Bognor, Sussex, in the middle of May.

**ELKS LODGE HONORED**  
GETTYSBURG (Pa.) June 30. (P)—The Guggenheim Fund for the Promotion of Aeronautics has bestowed a distinguished service on the Gettysburg Elks' lodge. The lodge was the first to paint a sign to direct flyers.

## BOYS UNEARTH ANCIENT TOWN

English Students Dig Up Old Roman City

As Result Staid Village Now Tourist Center

Pavements, Wall, Materials Verify Beliefs

HALES (Eng.) June 30. (P)—Spades of schoolboy archeologists have uncovered here what have been designated portions of the lost Roman military settlement of Mediolanum.

As a result the tranquility of this secluded Staffordshire village threatens to be supplanted by the bustle of a modern "tourist" town.

The transformation as yet is only threatened, for the man who owns the land on which Mediolanum was built about nineteen centuries ago is not enthusiastic about having his pasture torn up by excavators, and still less enthusiastic about seeing his beloved village lose the charm of utter seclusion.

As the work continued, however, it became apparent that the remains were Roman, not medieval English. Then, more recently, a Newcastle schoolmaster and archeologist, T. Pape, obtained the owner's permission to go on with the project.

He and his pupils spent their Wednesday and Saturday half-holidays on the site and eventually cleared away enough earth to leave no doubt that this was a Roman villa dating back to the late first or early second century A.D.

UNTIL JULY 10 Deposits made in Savings Accounts to and including July 10 will be credited with interest as from July 1. Owners of savings accounts in eastern banks may take advantage of this interval to bring their accounts here.

## Fifteen Years Old, Today—

In fifteen years—this bank has grown from deposits of \$300,000, to deposits of approximately \$23,000,000, and from a capital of \$300,000, to one of \$5,000,000, with surplus and undivided profits of over \$2,000,000.

In fifteen years this bank has grown from quarters on the second floor of the Garland Building, to its own height-limit home of which it occupies five floors.

In fifteen years there have been few changes in the staff which serves you. Most of these employees are still here, and 78% of them own stock in the bank.

Yet, in this growth, we have not lost sight of the fact that our patrons are largely responsible for our success....and we thank them sincerely.

# A CHUCKLE FOR EVERYBODY

## THE RETURN OF TARZAN

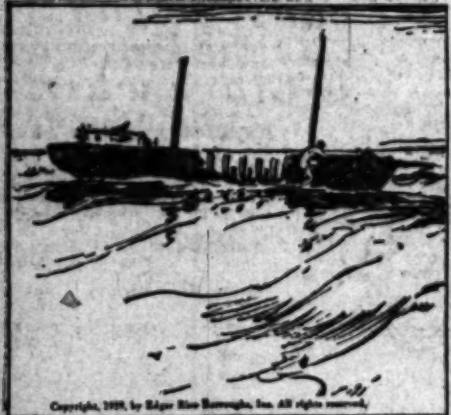

By Edgar Rice Burroughs

As Tarzan struck the water, his first impulse was to swim clear of the propellers. Now he lay in the sea easily swimming, his chief emotion a desire to see the ship. He watched the receding lights of the ship. Never in his life had he called for help, so that didn't occur to him.

There was, he thought, a possible chance he might be picked up. A swimmer one that the ship might have been close to land. So with long, easy strokes, he made for the coast. As he swam, he noticed the weight of his shoes, so he removed them, together with his trousers, coat and shirt.

To his consternation, as he felt for his valuable papers, they were gone! Now he knew that not for revenge merely had he been pitched overboard. Rokooff was at the bottom of the mystery! He let his remaining garments sink into the Atlantic and, thus unencumbered, swam easily seaward. Toward dawn he saw a dim outline in his path.

It was a wave-washed derelict. A few strokes brought him to its side. The sea was quiet, so the wreck had only a gentle undulating motion, very soothing to the swimmer who had been twenty hours without rest. Tarzan curled up on the slimy timbers and was soon as fast asleep as when a baby in his jungle cradle.

Other Project Showings Held of Little Import

While one well in the Ventura-avenue field is taking core which indicates a turning of the structure toward the southeast, another is drilling ahead with no showings of consequence at 5880 feet.

## OIL FIELD IN DESERT FORECAST

Great Deposits Believed to Exist in Area Known as Harding Hills

Belief, based on months of exploration, that great oil deposits underlie the desert between Mojave and the dry lakes to the south and southeast, is expressed by John R. Harding, Southern California petroleum engineer.

## SEVEN TROUGHS TO ERECT MILL

Work on First Unit Slated to Start Immediately

Considerable Plant Equipment Already Ordered

Company Plans Operations on Enlarged Scale

RENO (Nev.) June 30. (Exclusive) Immediate construction of the first 100-ton unit of a large mill has been authorized by the Seven Troughs Gold Mining Company, and orders already have been placed for considerable equipment.

## Trio of Wells Start in Kern During Week

BAKERSFIELD, June 30. (Exclusive)—Three new oil wells were started in during the past week in the fields of Kern county, according to the State department of petroleum and gas.

The Pan American Petroleum Company in the Kern front field, will drill No. 38 on Sec. 22, 28-27. The location is 258 feet north and 210 feet east from the center of the section.

## PARALLEL LINE PROBABLE

Since then the Pacific Gas and Electric is reported to be planning a new gas line parallel with the one it is now constructing, the impression being that such a line might be expected to serve the territory between Natural Gas plants to invade as a competitor, Pacific Gas and Electric's present line is sixteen and twenty-two inch. Another line of similar capacity would, it is believed, give the company a total investment of nearly \$20,000,000 in natural gas lines reaching from the Bay District to these two fields.

## LOW RATES EXPECTED

Early in the year it was expected that one pipe line taking gas from Buttonwillow Ridge and Kettleman Hills would run to San Jose and that the gas there would be mixed with artificial gas for industrial and domestic use. It now seems possible that three or four gas lines will be in operation before the end of this year, and that industrial plants at Richmond, Berkeley and other points will enjoy the benefit of excellent factory fuel in abundance and perhaps at much lower rates than those which have prevailed in recent years.

## TAMING OF WILD TEST INTERESTS

Maricopa Flats Project May be Good Producer if Brought Under Control

MARICOPA, June 30. (Exclusive) The wild Sunset Extension No. 1 well of the North American Consolidated oil on Maricopa Flats, which recently sprayed the countryside with oil only to sand up and then blow in again a few days ago, injuring one of the drillers, continues to attract considerable attention. The last time it blew in it wrecked the derrick.

## Midnight Test Ore Shipments Held Increasing

Oil Operations in Poso Creek Area Reported

POSO CREEK, June 30. (Exclusive)—The Petroleum Securities Company has completed its Glide No. 15 well on Sec. 21, 27-28, and has shut it in. The well is down 1870 feet, with ten and three-quarter inch casing set at 1800 feet.

**Gold Ace Consolidated  
Mining Co.**

Gold Ace Consolidated Mining Company owns out-  
right, six claims and a fraction of a claim north of,  
and immediately adjacent to, the property of Gold  
Ace Mining Company.

Intensive development work is going steady-  
ly ahead under the direction of Mr. James  
Shea, who is superintendent of the Gold  
Ace Mining Company.

The ground owned by this company has been pro-  
nounced as being one of the best groups in the dis-  
trict by mining engineers and operators who are fa-  
miliar with this locality.

A ledge 8 feet wide and carrying values  
up to \$38 per ton has been uncovered, and  
it is anticipated that with further develop-  
ment work a large body of ore will be de-  
veloped similar to that found on the prop-  
erty of the Gold Ace Mining Company.  
It is possible that high grade ore may be  
encountered at any time as very rich pan-  
nings have been obtained near the surface.

**Oil and Mining News  
KETTLEMAN GROWS LONGER**

*Discovery of Good Sand in Milham Exploration Hole  
Regarded Significant by Operators*

The most interesting development at Kettleman Hills in recent weeks is the coring of thoroughly saturated oil sand in the Milham Exploration Company's Kennedy No. 1 well at 6910 feet. After a small gas blowout a week or so ago this well drilled ahead into the sand and now is making excellent progress. The picking up of oil sand at that depth establishes the field as being one of considerable length, with a rather flat structure, operators say.

The Kennedy well is three and one-half miles northwest of Milham's Elliott No. 1 producer, which found the oil sand at about 6400 feet, in the belief of many geologists, but went beyond 7000 feet for completion. The General Petroleum Corporation got oil sand in its Ochsner No. 2 on Sec. 29 somewhere in the vicinity of 6800 feet, and this well in several miles southeast of the Elliott No. 1, so it would seem that the structure already has been proved as being long and flat for upwards of six miles from north-west to southeast.

General Petroleum is swabbing for production at 6900 feet in its historic Ochsner No. 2 on Sec. 29, after having drilled out all but 141 feet of a long string of drill pipe frozen in the hole many weeks ago. This well once blew in, showing considerable oil and gas. Five oil wells in the State have had as much done to them as this one.

The project suspended for a year or more after getting down below 8000 feet. After the Milham well blew in and discovered the field General went back and drilled the well into a blowout, afterward running into a bad fishing job, but still having an excellent prospect to make a producer out of it. Considering the difficulties encountered in drilling at Kettleman Hills, field men think that the General Petroleum production department has done an excellent job of prospecting in this well.

General's Ochsner No. 2 on Sec. 29 is drilling ahead in hard formation at 8140 feet.

George F. Getty, Inc., has completed a fishing job in the Armstrong No. 1 on Sec. 4, 22-17, and is drilling ahead below 5707 feet. Rotary is being rigged for Armstrong No. 11 on Sec. 6, 22-18.

The Associated Oil Company's Watson No. 1 on Sec. 34, 22-18, tied up several weeks by a fishing job, is being cleaned up to bottom at 4243 feet. The drill collar and stem were frozen in the hole at about 4200 feet. The Smith No. 1, on Sec. 12, 22-18, has suspended at 2043 feet.

The Standard Oil Company is tied up by a fishing job in its No. 41 on Sec. 3, 22-17, the six- and three-quarter-inch drill pipe being frozen, with bottom of the hole at 8071 feet.

Eleven and three-quarter-inch casing will be run shortly in Standard's No. 58, on Sec. 17, 22-18. Bottom of the hole is at 4980 feet. The No. 81, on Sec. 11, 22-17, is coring below 6390 feet. The No. 8, on Sec. 1, 22-17, is preparing to land eight and five-eighths casing at 6000 feet, with bottom at 6290 feet. Ten other wells in the field are drilling ahead, two are rigging up and location for another is being prepared.

**PROJECTS STARTING**

Two Reported Rigging Up in  
Following District

The Chandler-Cutfield Midway Oil Company is building derrick for its No. 8 well on Sec. 7, 22-23, in the north Midway field, and will spud in within a short time. The Republic Petroleum Company is rigging up its No. 25 well on Sec. 5, this well will offset the C.C.M.O. No. 8.

The No. 6 of C.C.M.O. on Sec. 7, completed this week at a depth of 3300 feet for 350-barrel daily output, is continuing at that rate.

**REPORT OF  
SUGARMAN  
MINE ROSY**

*Material Gain in Mill  
Ore Output Anticipated  
from Sonora Estate*

A material increase in mill ore production, not to mention frequent occurrences of high-grade, is anticipated by local officials of Sugarmen Mines, Inc., upon receipt of word from Mine Manager Arthur Delaney that the Jew slate on No. 3 level of the mine, 300 feet south-west from the main working shaft of the company holdings near Sonora, this State, had been encountered. This slate, Delaney says, is the best mineralized slate so far opened in the mine, four others on the same level now being on regular production and supplying the needs of the milling plant on the ground.

The Jew slate where encountered, it is said, is heavy sulphide deposit indicative of the near approach to a sheet of first-class milling ore, and an upraise is now being made on this slate with the expectation of opening up a chamber of high-grade gold-bearing quartz.

These occurrences, according to General Manager R. H. Nelson, are found at the intersection of slate reefs with the strong quartz vein, following the course of which development and exploratory work is now progressing. Beyond the Jew slate, he says, there are a number of other slate reefs.

The company has but recently completed the installation of a two-drill air compressor to supplement the one-drill compressor now in use, and also a three-stage centrifugal pump to take care of any additional water flow that may be developed as greater depth is attained.

**NEWS FROM  
MINE STILL  
FAVORABLE**

*Faulting Problem Seems  
Solved in Property of  
Altar & Cananea*

TUCSON (Ariz.) June 30. (Exclusive)—Favorable reports are coming from the property of the Altar and Cananea Mining Company, where much new ore has been opened in both the No. 1 and No. 2 ore bodies and the supposed "faulting" problem has apparently been solved. A crosscut recently run on the 200-foot level failed to locate the downward extension of the No. 2 body, from which 1000 tons were extracted four years ago on the 150-foot level. Additional work on the 150, which was badly caved, has since exposed seventy-two feet of ore and produced evidence leading the engineers to the conclusion that there is no fault, merely a bed in the deposit. Now a winch will be sunk through the ore on the 150 and another crosscut run at the 200.

On the west side of the shaft, also on the 150-foot level, No. 1 ore body has been found to be thirty-six feet wide. It was thirty-eight feet wide where crosscut at a depth of sixty-eight feet, thus indicating that it is holding 1 1/2 width well.

**ORE STRIKE  
CONTINUES  
TO ATTRACT**

*Discovery in Belmont  
Reported Widening and  
Values Holding Up*

SUPERIOR (Ariz.) June 30. (Exclusive)—The strike in the Sandia vein at the Belmont mine continues to attract much attention. It is said that the body continues to widen as development progresses, while values hold up well. Three feet is the present width; the copper content is per cent. There is from eight to fifteen ounces a ton silver, and lead values are high.

Well authenticated reports are in circulation here that the diamond drilling campaign in progress on the Magma Apex has resulted in an important ore discovery. The company is withholding details. Charles McIntosh has arrived from New York to start work on the old Fortuna mine, held in the name of the Fortuna Consolidated Copper Company. He states that the company is well financed for a good program of development. Years ago the Fortuna was a good producer.

**PREPARING FOR TEST**

*Ohio Sets Casing in Project on  
Belridge Tract*

TAPT, June 30. (Exclusive)—The Ohio Oil Company is preparing to make a production test in its No. 28 well in Belridge field at 728 feet, with ten-inch casing set at 695 feet. The well is on Section 20, 22-21. There is little likelihood, however, that the company will stop at 728 feet. Its No. 23 well near by is standing cemented at 5004 feet with six and five-eighths-inch casing set at 4100 feet.

The Belridge Oil Company's No. 15 well in the same field, on Sec. 26, 27-20, is drilling in hard brown shale at 6500 feet.

Mine and Oil Notes From Far and Near

**BUTTONWILLOW DEEP TEST DUE**  
Previous Efforts Futile from Production Standpoint  
Buttonwillow Ridge is to be given a deep test for oil production. To date it has yielded nothing but dry

gas at depths ranging down to about 3500 feet, but the Milham Exploration Company has just spudded in a well which is going down in search of oil even if it has to go 7000 feet deeper to find it.

**ADDITION TO OIL FIELD FORECAST**  
Elwood Extension Southeast Believed Planned  
The possible development of an oil field extension southeast of Elwood is believed to be the inspiration for an oil pipe line project which the General Petroleum Corporation is reported to be planning.

**INVESTORS REPORT ON GOLD ACE**  
Carrara (Nev.) Property Said to be Making One of Best in State  
Investors who have just returned from a trip to the Gold Ace Mining Company's property at Carrara, Nev., report that the property is developing into one of the best in the State, and that the high grade ore in the original discovery has been cut in the new vertical shaft at seventy-seven feet, more than fourteen feet of it having been penetrated, giving a thickness of eight to ten feet between walls.

**Transcontinental Air**  
UNQUESTIONABLY one of the outstanding stocks on today's market is Transcontinental Air Transport Company, the air travel link of the Pennsylvania and Santa Fe Railroads between the Pacific and the Atlantic Coast. The stock is listed on the New York Curb Exchange.

**Lindbergh will Fly the First Plane East from Los Angeles July 8**  
"Col. Chas. A. Lindbergh will pilot the plane which will leave Los Angeles July 8 to inaugurate the transcontinental air-rail service to New York, it was announced here today." (United Press Dispatch from New York dated June 12, 1929)

**PAY ONLY 20% DOWN**

1015 Stock Exchange Bldg., Los Angeles, Cal. • TRINITY 5881  
GENTLEMEN: Please send me complete information regarding your Partial Payment Purchase plan for Transcontinental Air.

**STATUS OF OIL AREA IN DOUBT**  
(Continued From Fifteenth Page)  
to 7000 feet, but it is not thought that the Taylor-Lloyd No. 1 will find enough oil to extend the field in that direction.  
Down on the south flank of the field the Associated Oil Company, drilling on contract for the Southern Pacific Railway and the M.K.T. Oil Company, is trying to complete two wells on the Foster and Percy leases. The Percy No. 1 is down 7781 feet. While swabbing it Saturday, the crew lost the swab and got into a fishing job. The Foster No. 2, down 7400 feet, with 1800 feet of open hole below the water shut-off, will make a production test today, and will later run in tubing. The Foster No. 3, in the same line with Foster No. 2, is being tested for water shut-off. Bottom is at 5981 feet.

**MINE SUIT FILED**  
Tom Reed Sues \$2,000,000 Damages from United Eastern  
KINGMAN (Ariz.) June 30. (P)—The Tom Reed Gold Mining Company lately filed suit in Superior Court for \$2,000,000 damages against the United Eastern Mines Corporation. The complaint alleges the United Eastern Mines Corporation unlawfully extracted ore from properties of the Tom Reed Gold Mines Company. The claims involved are near Oatman, Ariz. The Tom Reed Gold Mines Company still is operating there.

**TESTS WET**  
When the Ring Oil Company's Nugent No. 1 tested wet two weeks ago at a depth where production was expected, General Petroleum Corporation among operators there, but recent showings in the Easter Oil Company's Edwards No. 1, an offset to the Olympic Oil and Refining Company's Locust No. 1 discovery well, and in the Dunlap & Knapp's Hamilton-Lindke No. 1, now standing cemented at the top of the oil sand at 2147 feet are said to indicate that Ring's well apparently was not drilled deep enough.  
With the belief growing that Ring's well might penetrate something interesting, it drilled deeper, half a dozen operators are planning to make a joint test of the Nugent No. 1. The Major Oil Company, Doyle Oil Company, E. A. Barker, and a number of others, are said to be in on this plan. Their own wells remained idle last week.

**PERMITS SOUGHT**  
Additional applications for drilling permits are anticipated when 3200 acres surrounding the Palmdale field, are today opened to drilling by the City Council of Santa Barbara. An ordinance lifting restrictions on that area was passed a month ago. It embraces a district chiefly leased by major operating companies, and if the field widens, considerable activity there may be expected.  
A week ago, drilling operations were halted when a water main from Sheffield Reservoir burst. For a time, officials stated, all wells in the district would have to remain idle pending repairs as the city water supply was seriously threatened.  
The General Petroleum Corporation, Union Oil Company and Easter Oil Company were electrically equipped and could continue in the face of these difficulties. General made application to the City Council for permission to construct a water line from the ocean, with the intention of installing machinery to make sea water available for use if further breakages occurred in the water main.  
Preparations are being made to spud in B. G. Morrison's two wells on the north side of Cliff Drive. Near by, two other wells will be spudded in at an early date by the Indian Oil Company.  
At the west end of the field, Rogers & Coffman's Zerkow No. 1, spudded in several days ago. This brings the number of active projects to thirty-five. Since the City Council first started to accept applications to drill, more than thirty-five have been filed. Preparations are being made to consider many more for the new area which will open today.

**Union Projects Hold Interest in Taft Field**  
TAFT, June 30. (Exclusive)—Activity in the Midway-Sunset field is centering around the Union Oil Company, which has three wells under way and is preparing to start another. Other operators in the field have been comparatively quiet during the last few days.  
Union's Williams No. 1 well on Sec. 22, 23-25, is drilling ahead at 1600 feet, while the Western Petroleum No. 1, located on Sec. 27, 22-23, is waiting for a water test in the upper zone at 2200 feet. The Houchins No. 4 on Sec. 18, 11-23, is reported to be standing cemented at 5305 feet.  
Union is building road for a test well on Sec. 8, 11-24, near the Marlcoosa Flat.

**SEVEN TROUGHS TO ERECT MILL**  
(Continued From Fifteenth Page)  
the proposal of the directors that the capital be increased from 4,000,000 to 6,000,000 shares.  
To pay off indebtedness amounting to about \$10,000, the San Rafael Consolidated Mines Company has levied a 1-cent assessment. The management says that the properties at Quartz Mountain contain a good tonnage of mill ore, and that indications are favorable for opening enough commercial material to warrant the erection of a mill. The company owns practically all properties of any importance at Quartz Mountain.

**MINE IN NEW HANDS**  
Old Commodore in Calaveras to Operate Again  
With the purchase of the Commodore mine near San Andreas in Calaveras county, by the Best and Belcher Mining Company of Virginia City, another Nevada mining company enters the California field.  
The Commodore is one of the well-known early-day producers but has been closed for many years. The mine has been developed to a depth of 300 feet and good ore bodies are believed to exist below that depth. Machinery is now being installed for sinking.

A Major Public Utility System

Earnings at Annual Rate of \$100,000,000

HOMES, factories, stores—to 1,200,000 the Associated System brings gas or electricity—essential services used to a larger and larger extent every day. From 1921 to 1928, Associated System electric sales increased 122%. This is 21% greater than the average for the country as a whole.

Already one of the largest businesses in the country, the electric light and power industry is still in its growth period with tremendous possibilities for development.

More than one-third of the population still lives in unimproved homes; less than 12% of the farms enjoy the comforts and conveniences of electricity; and over 35% of industry is still without central station service. It is predicted that gross earnings of the electric industry will more than double during the next ten years.  
Combining security and good yield with an opportunity to share in the growth of the industry, Associated securities merit the attention of the discriminating investor.

"Rights" to subscribe at \$42 per share in additional Class A Stock of Associated Gas and Electric Company have been mailed to June 15th holders of record. This is considerably less than the current market price.

Subscribers may pay out of income as follows: Upon subscription, \$10 per share; Oct. 15, 1929, \$10; Jan. 15, 1930, \$10. Interest at the rate of 6% per annum will be allowed on all payments from date of receipt to the date when dividends begin to accrue on the Class A Stock.

A copy of the colored map demonstrating the growth possibilities of the territories served, and a copy of the Annual Report, will be sent to you on request.

# Los Angeles Today Welcomes Vanguard of Elk Army Arriving by Land and Sea

## ANTLERED HERD TREK BEGINNING

First Officials Due by Boat to Start Business

J. T. Fanning, Past Grand Ruler, on Mongolia

Polo Teams Picked for Game on Coliseum Field

Joseph T. Fanning, editor and executive director of the Elk's Magazine, past Grand Exalted Ruler, B.P.O.E. and one of the outstanding figures in Elkdom, is scheduled to arrive at 7 a.m. today on the S.S. Mongolia from New York. Fanning is the first of the B.P.O.E. dignitaries to reach Los Angeles for the sixty-fifth national Elk's convention July 7 to 13. Coming today are the B.P.O.E. officials, including the Grand Lodge, Fanning will arrange for the business sessions of the order on Tuesday, Wednesday and Thursday, July 9, 10 and 11.

**FANNING'S PART**  
As secretary-treasurer and executive director of the Elk's National Memorial Headquarters Commission, Fanning also will lay out the business to be taken up by that body.

Grand Lodge sessions will be held in the Biltmore. Election of officers will take place on Tuesday morning with installation set for the following Thursday morning. Outstanding among the candidates for Grand Exalted Ruler of the order is Walter P. Andrews of Atlanta, Ga.

### POLO MEN PICKED

Selection of teams for the polo game to be played in the Coliseum preceding the \$1,000,000 motion-picture electrical pageant on Thursday night, July 11, was announced last night by John J. Doyle, vice-chairman of the convention. Due to the limited size of the Coliseum arena the teams will consist of three players each. The Uplifters' Club team will be composed of Hal Beach, captain; Jack Holt and Will Rogers, Jr. The Buccaneers will be captained by R. L. (Snowy) Baker, captain; James Colt and Scott Hickey.

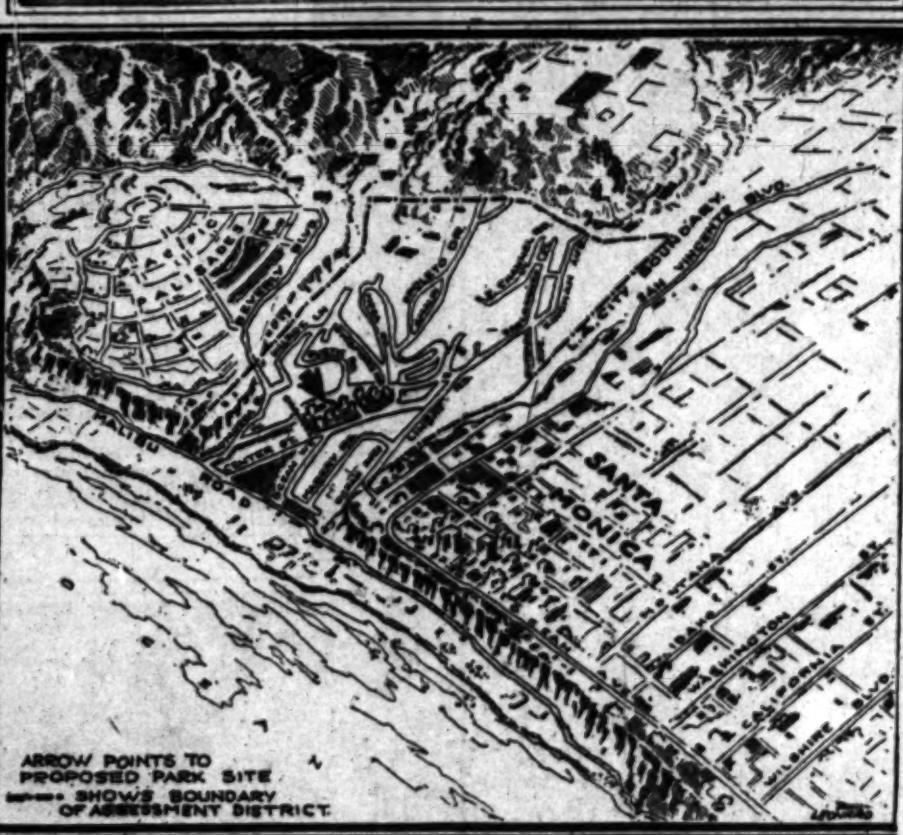

Plans are being completed for presenting the enlarged and reconstructed \$1,000,000 motion-picture electrical pageant on Thursday night. All lights in the Coliseum, except those used on the illuminated floats, will be purple and white, official colors of the Elk's. Monte Blue, grand marshal, will ride in a decorated and illuminated automobile at the head of a section of film stars. At 11 o'clock Conrad Nagel will deliver the Elk's 11 o'clock toast.

### DRESS PARADE

Harry H. Atkinson of Reno, Grand Esquire of the Elk's, will be marshal of the Grand Lodge dress parade to take place in the Coliseum Thursday afternoon. The parade will begin at 1 p.m. and will last approximately three hours. More than 10,000 Elk's will march. Tickets admitting to all three Elk's Coliseum events may be had at the R. H. Dyer store.

One of the features of the convention will be a welcome dance to be given the 11th inst. at El Patio ballroom for Montana Elk's. The dance is being given by Turner Montanans who are now residing in and around Los Angeles. More than 1000 Montana Elk's are expected to be present. Special entertainment features are being arranged by Mrs. Irene D. Semper and Arthur Riddell, chairman.

## Property Owners Up in Arms Against Park Scheme

The map shows (arrow) the tiny three-and-a-half-acre park for which the neighboring property owners would be assessed \$70,000 an acre for land really men say is worth around \$15,000 an acre. The dotted line shows the boundaries of the assessment district. Above is a photograph of part of the "park site." This piece comprises five lots, about 50x100 feet, and is on the assessment roll for the park at \$4,175. The "improvements" thereon, consisting mostly of the old barn, are valued for "park purposes" at \$172.

## Walter James, Long Resident Here, Expires

A resident of Southern California for sixty years, having come here with his parents when 5 years of age, Walter W. James died at 4 p.m. yesterday at his home, 1287 Colton street. He had been ill for about five months.

He leaves his widow, Mrs. Carrie James, and one son, Gerald, who is attached to the Los Angeles County Engineering Department. He also leaves a brother, Evan James, and two sisters, Mrs. Edna Simpson and Mrs. Marrie Smith, all of this city.

Mr. James was born in Carson City, Nev., and was the son of Mr. and Mrs. Alfred James, who were among the first settlers of the Southland.

Funeral arrangements will be announced later.

## Panama Violinist Due Here Today

Among the passengers aboard the S.S. Mongolia when the vessel docks at Los Angeles Harbor at 8 o'clock this morning will be Alfred San Malo, violinist, who is to appear at the opening concert in the Hollywood Bowl on the 14th inst. He is coming from Panama, which he represents as consul of the Panamanian Legation in Rome, Italy.

A delegation headed by Dr. Jose S. Bernal, Consul of Panama, and the Dominican Republic, will meet him at the pier and escort him to the Hollywood Plaza Hotel, where he will reside during his stay.

### In An Emergency

Give the cracked window pane a coat of clear shellac. It will render it water-proof until the new pane is inserted.

## STATE GROUPS TO HELP TRADE

Chamber Announces Plan as Business Getter

Former Residents Will be on Committees.

Western Region's Commerce to be Boomed

Announcement of a new move in connection with the Chamber of Commerce plans to develop the domestic markets of the eleven western States for the benefit of Los Angeles industries and jobbers, has been made by President Shannon Crandall in disclosing plans for the formation of State committees.

The chamber is interested in maintaining a close contact with neighboring States and we recently have determined on a plan for setting up within this organization a committee representing each of the western States," Mr. Crandall said.

"Each committee will consist of fifteen or twenty members who are local business leaders and former residents of the State which they represent."

"Such committees will do much for the development of new markets for our manufacturers as well as aiding in the development of a reciprocal trade that will assist our neighboring States in selling their goods here."

The plan already has been tried successfully by the manager of the chamber's domestic trade department, E. F. MacDonough, according to Mr. Crandall, who said that a Utah committee in the chamber is functioning successfully.

The State committee will be called on to take part in all matters between neighboring States and Southern California, and will act in an advisory capacity for the extension of mutual trade relations.

The chamber now is making detailed trade surveys of each of the eleven western States. Trade Commissioner Albert V. Wetzel being engaged in an analysis of the markets of the New Mexico and Nevada, which will be published in separate reports on his return to Los Angeles.

## FORMER STAGE STAR HEEDS TALKIE LURE

Mrs. Park Benjamin

"Since Hollywood went talkie, New York has gone Hollywood, and I'm here merely with the prospect," Mrs. Park Benjamin remarked on her arrival here yesterday.

The New Yorker, who prior to her marriage of Mrs. Benjamin had achieved stardom on the stage under her maiden name, Gladys Langford, is here to enter the talkie arena with one of the several film concerns with which she has been in communication, she said.

She also plans to open a talkie studio for the Lauder Recording Company, similar to the one conducted by her sister-in-law, Mrs. Enrico Caruso, in New York City.

Her connection with the Lauder company, Mrs. Benjamin says, will not interfere with her work in the films, which she says will be under the name of Gladys Gale.

The reason for the stage name, the former stage actress asserts, is to avoid the exploitation of her married name, and to be able to make whatever success she may attain to merit.

Mrs. Benjamin, who formerly resided with her parents at Riverside, where also she was married, declared yesterday that she is very glad to be back in Los Angeles after an absence of four years. Until she has finished her film and talkie tests this week she plans to remain at the Alexandria.

## SCREEN HONOR LIST SLASHED

(Continued from First Page)

for consideration are in sound or dialogue. Performance will be judged on individual merit, whether the film is sound or silent," Benjamin Glaser, chairman of the awards committee, stated.

### ONE TALKING FILM

Of the fifteen first awards and twenty certificates of honorable mention given last year only one was for a pioneer dialogue picture, "The Jazz Singer," and one for a "talkie," "Wings."

The academy selections will be made from feature productions released between August 1, 1928, and August 1, 1929.

The academy's own judgment of the best work of the industry will be conferred after a study of the features released during the year by all the Hollywood studios and a vote of board of judges composed of leading members of the creative branches of production. The 175 members of the academy will elect nominees until August 10, next. The ten highest nominations will be referred to separate committees of actors, directors, producers, technicians, and writers. These will select five candidates for each award to be passed on by a central board of five judges who will make the final decisions.

### PROBLEMS INCREASE

The difficulty of assigning credit for work to which many people have contributed and the changes brought about by the talking-picture revolution, were cited by the academy committee as reasons for making the annual list of honors more exclusive. The separate awards for original writing and adaptation will be replaced by one for the best picture, which will be the stand that writing the dialogue and scenario of a modern motion picture constitutes a distinct literary production, whether or not the material has been previously published.

The distinction between the best dramatic production and the best comedy production also was abandoned as last year's voting showed there can be no arbitrary dividing line, the committee declared. The 1929 awards provide no individual recognition for musical productions but this type of film will be judged with all others.

### WINNERS POPULAR

"A significant relation between the best pictures and those most popular with the public was revealed by the 1928 awards and will be further tested this year," the academy committee declared. The academy decisions are made for individual meritorious achievement. Both the nominations and final votes are cast by the fellow-workers of those who are to receive distinction.

"Public opinion is not a primary factor. Nevertheless, of the twenty-one different pictures on which one or more awards were granted last year, fifteen broke box-office records in different sections of the country."

"Such productions as 'Seventh Heaven,' 'The Last Command,' 'Wings,' 'The Jazz Singer' and others prove that artistic merit and popularity are very often combined. Not all the best pictures from the artistic standpoint have wide appeal, but nearly every successful picture owes a heavy debt to one or more of the elements which make for quality."

The awards also showed that there is no formula for a good picture. "The Crowd," "Chasing the Racket," "Sunrise" and "The Circus" were realms apart in subject matter, cast, and treatment, yet they were all ranked among the best pictures of the year.

## STUDENTS BOARD SHIP FOR ORIENT

Group from Los Angeles Schools Sail as Envoys of International Amity

Twelve Los Angeles students and teachers are on the Japanese steamer Africa Maru from Seattle, en route to spend three months with the United States expedition in Japan and China, studying commerce and the international education division of the National Student Federation.

The Los Angeles party includes Chester G. Williams, senior at the University of California at Los Angeles and secretary for the international education division of the National Student Federation.

Don B. Leifer, associated with him, are leading the party and have been delegated to meet the student leaders in Japan and China to obtain the co-operation of their associations and to urge their entrance into the International Federation of Students.

Before sailing, a cable of welcome was received by the party from the Nationalist government in China, offering special railroad accommodations to the party. Several official receptions have been announced by Upton Close.

The Los Angeles party includes Miss Clara Berryman, Belmont High School teacher; Miss Laura Duffy, and Miss Julia Jennings, public school teachers; Mr. and Mrs. J. P. Clewe, Jefferson and Fairfax High School teachers; Miss Mildred Moody, artist; and Miss June Gray, teacher.

Don B. Leifer, German educator, been studying the Los Angeles public-school system the past year, is returning to Japan, where he was born, as a member of the party.

Other members from Southern California are Tom Vasey, Long Beach Junior College graduate; David Ray, U.C.L.A. student; Jos Shinoda, American-born Japanese student from Pomona College; and Howard Fay, graduate of Riverside Junior College. The party sailed Wednesday.

### COURT ROUTINE FIXED

Delinquency Cases Will Go to Criminal Division

Additional cases thrown into the Municipal Courts by the Appellate Court decision holding they must try cases involving charges of contributing to the delinquency of a minor which have previously been tried by Superior Court will be handled by the regular criminal divisions without the assignment of an additional division to handle such cases, according to Presiding Judge Turney of the Municipal Courts.

The decision, handed down last week, was rendered on an application for a writ of habeas corpus filed for by A. Brigham Rose, attorney for Jerry Leach and Forrest Huggins, convicted in Superior Court. The Appellate Court ordered Leach and Huggins released from custody, holding that the Superior Courts had no jurisdiction in the case, which should have been tried by Municipal Court.

## HERO GIVES LIFE IN RESCUE

San Bernardino Boiler Maker Drowns at Long Beach Exhausted After Saving Woman

By a "Times" Staff Correspondent  
LONG BEACH, June 30.—A week-end party of two brothers and their wives ended tragically here today when one of the men, Overton, 35-year-old boiler-maker of San Bernardino, lost his life in a surf after going to the aid of a woman bather in distress. The body was not recovered up to a late hour tonight.

Leaving his wife at a tent city where they were all stopping, Overton went with his brother and the latter's wife to the beach near the flood control channel. Observing a woman's distress signals beyond the last line of breakers, he plunged in and swam to her side. A moment later Lifeguard Cliff Thiede reached the two and found Overton near collapse. Unable to cope with both he was forced to abandon Overton to his fate.

The drowned man's address was given as 464 Kingston street, San Bernardino. He was in the employ of the Santa Fe Railroad.

### MONEY DESTRUCTION FALSE CLAIM CHARGES

Al C. Graham, alias C. A. Graham, is scheduled to be arraigned today before United States Commissioner Head on a charge making false claims for the destruction of national currency. He was arrested by W. W. Adams, assistant U.S. marshal, at the County Jail in default of \$5,000 bail. Federal agents charge that he sent bills of burned bills to the government, asserting that the bills had been partly burned.

## ALL READY FOR REGIME CHANGE

'Key' Presentation to be Form of Ceremony

Porter Will Receive S from Mayor Cryer

Organization Proceeding Council to Follow

The new regime will take of the city government today when Mayor Cryer succeeds George C. Porter as Mayor. Erwin F. Cryer, City Attorney, is expected to be the first of the new members of the city government to assume the functions of office. Under the new regime the only thing approaching the transfer of power is the unofficial rite of the "Key to the City" ceremony. It is a huge wooden affair, with silver plates carrying names of all the men who served as Mayor for the past 25 years.

Mayor Cryer will meet Porter shortly before 10 a.m. Porter will receive the "Key to the City" from Mayor Cryer. Porter will then receive the "Key to the City" from Mayor Cryer. Porter will then receive the "Key to the City" from Mayor Cryer.

It is expected that Mr. Porter will establish his son, Lee Porter, as the private secretary of the new Mayor. Mr. Porter will read off the names of the members of the city government to the new Mayor. Mr. Porter will read off the names of the members of the city government to the new Mayor.

THE new Council will be organized probably after a vote of the people. Porter and former Mayor Cryer, and other members of the city government, will be present at the ceremony. Mr. Porter will read off the names of the members of the city government to the new Mayor. Mr. Porter will read off the names of the members of the city government to the new Mayor.

COUNCIL ORGANIZATION

# New City Administration Takes Hold Today

## READY FOR REGIME CHANGE

Presentation to be Only  
Form of Ceremony

Will Receive Symbol  
from Mayor Cryer

Proceedings of  
Council to Follow

The new regime will take control of the city government today, when Mayor Erwin P. Werner succeeds George E. Cryer as Mayor. In place of Cryer, who has been Mayor since 1925, will be the new Mayor, Erwin P. Werner, who was elected in the primary election of May 7. Werner, who is a native of Los Angeles, has been in the city government for the past forty years.

Werner will meet Mayor Cryer shortly before 10 a.m. at the Mayor's suite, and there will be a presentation of the keys of the city to the new Mayor. Werner is proud of the fact that he is a native of Los Angeles, and while he feels a great deal of responsibility for the city government, he is confident in his hope that Mr. Cryer's service will mark the beginning of the latter's aspirations.

Mr. Cryer will be accompanied by his son, Lee Porter, in the presentation of the keys. Mr. Porter is a private secretary, a post of great importance to a successful administration of the duties.

## MUNICIPAL ORGANIZATION

The city council will formally organize the new city government today. The council will meet at 10 a.m. in the city hall, and will elect a new mayor and a new city controller. The council will also elect a new city auditor and a new city engineer.

## Directors of Future Municipal Activities

"Big Three" in Business of Running Los Angeles

private practice of law after ten years as head of the City Attorney's office, will meet Mr. Werner in the office and introduce him to the staff.

City Controller Myers, the only other elective official, will go right ahead functioning in the office which he has held for twelve years.

## PORTER TO OUTLINE POLICIES AT DINNER

Policies to be pursued by the new city administration will be outlined by Mayor Porter this evening in the first official speech of his term at an inaugural dinner to be given in his honor by the Porter inaugural committee. The dinner will be held at the Shrine Auditorium and it is to commence at 8:30 p.m.

Dr. Frederick P. Woelner of the faculty of the University of California at Los Angeles has been selected to preside. Other speakers besides Dr. Woelner and Mayor Porter will be Rabbi Ernest Trautner, Isadore R. Dockweiler and Superior Judge Edmonds. In addition to the addresses there will be an entertainment program.

The Shrine banquet hall has a seating capacity of 3000 and the inaugural committee expects every seat to be taken. Tickets are on sale at the committee headquarters in the Merritt Building, and at special booths at Bullock's, Barker Brothers, and the Broadway Department Store.

On account of injuries received in an automobile accident several days ago near San Diego, Mrs. Porter will not be able to be present. Her injuries are not serious, but attending physicians expect her to be confined to bed for a few weeks, until a torn ligament she suffered has had time to mend.

## TRIAL OF DAVIS STARTS TODAY

(Continued from First Page)

and read portions of the transcripts of the Julian stock-fraud case. In this event it may become necessary for the prosecution to insist on the reading of all of the transcript and as the Julian case occupied the best portion of five months the reading of the transcript alone will take more than a month.

From what could be learned of the prosecution plans yesterday only five or six witnesses are to be called. Getzoff will be the first to take the stand and he probably will be followed by two of the three Springfield tailors who testified against Keyes. Prosecution counsel probably will not call Milton Pike, the third tailor, now in the County Jail charged with having accepted a bribe from Davis for the purpose of changing his testimony. Davis brought about the arrest after Pike, he asserts, went to him with the corrupt offer.

Defense Counsel D'Orr refused yesterday to disclose his plan of defense but declared that it will require more time to present his side of the case than the prosecution expects to take. D'Orr also promised to develop some startling testimony and evidence in Davis's defense which he asserts will come as a complete surprise to the prosecution.

Davis first was appointed to the District Attorney's office as secretary to Dist. Atty. Keyes in 1924. Early in 1925 he was appointed as deputy District Attorney and headed the homicide department for some time. He resigned from the office during the spring of 1928 following the Julian stock-fraud cases. At the time he was chief deputy District Attorney, an office he had held for about a year. Up to the time of the indictment being returned against him he was in the private practice of law.

## JUDGE BUTLER CANT COME HERE FOR WEEK

SAN FRANCISCO, June 30. (Exclusive)—Superior Judge Butler of Marin county, who was requested by Dist. Atty. Pitts of Los Angeles to go to that city and appear before the grand jury tomorrow in relation to the Ben Getzoff probation case, will be unable to follow the Pitts suggestion for at least a week.

Judge Butler has been conducting court in Humboldt county for several weeks and at present is hearing a case that is expected to take all of this week. Whether Pitts's telegram to Butler reached him at Eureka, being forwarded from San Rafael, none of Butler's family or associates could state today. No one had any knowledge of Pitts's telegram. Long-distance telephone messages to Eureka brought information that Judge Butler was spending the day motoring over the Redwood highway.

## MOTORIST WOUNDED BY BANDIT

Saved-off Shotgun Used  
in Attack on Three as  
Robber Gets \$200

After being fired on by a bandit armed with a saved-off shotgun, W. O. Arnold of 2281 East Ninety-seventh street, was treated for wounds on the face and right shoulder at Georgia-street Receiving Hospital early yesterday. Police surgeons say his condition is not serious.

Arnold, in company with his wife and Fred L. Barrett, also of the East Ninety-seventh-street address, told police he was waylaid by two men as he drove into the alley in the rear of his home. As the armed bandit approached the car, Mrs. Arnold screamed and the shooting followed, according to the police report.

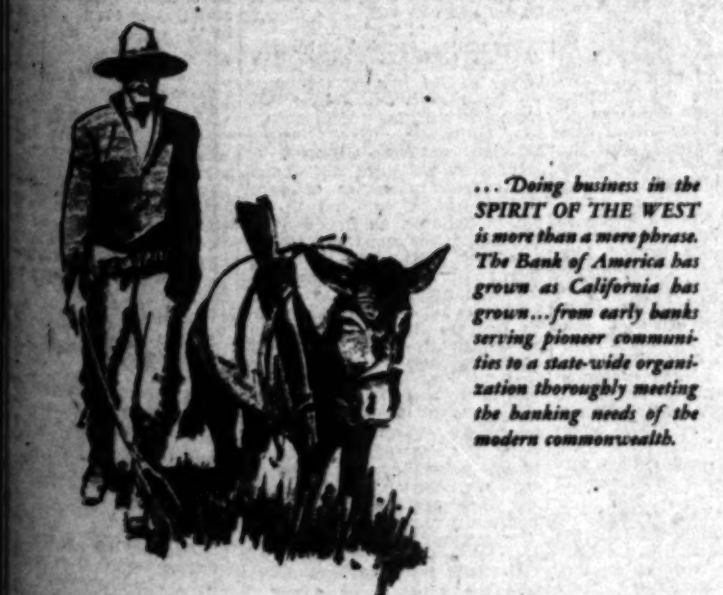

Barrett, manager of a Walnut Park dance hall, told police he believes the men followed the party home with the expectation that the dance-hall receipts for Saturday night would be found in Arnold's automobile. Barrett was forced to turn over a wallet containing \$200.

Your ironing board will last longer if you do not test the hot iron on it. Have a newspaper at the end of the board with some salt sprinkled on it. You can test and smooth your iron at the same time.

# The Bank of a Half Million Californians

When more than a half million Californians have made the Bank of America their bank there must be sound reasons for their choice. The stability of this institution, its state-wide scope, its complete facilities, and its background of sixty years of constructive banking are reasons often quoted. But just as important is the fact that here they find a real desire to assist them in every possible way—a spirit of helpfulness which is characteristic of this bank which has grown with the West.

The first ten days of July is an especially advantageous time to bring savings here from eastern points. During this period the transfer can be accomplished without loss of interest, as savings deposits made with us to and including July 10 earn interest from July 1.

# BULLOCK'S STORES FOR MEN

## Unusual Value in \$34.50 MEN'S SUITS

1000 Suits of Domestic  
and Imported Fabrics  
Particularly Tailored

Due to an advantageous purchase of imported and domestic fabrics, Bullock's Stores for Men accomplish 1000 more reasons for your knowing the consistently high value standard of this \$34.50 line.

And occasionally a great quantity purchase such as this one makes possible exceptional selections in woollens. So the value story of these 1000 suits is told in the fabrics... imported and domestic weaves of truly superior quality.

Men who would not think of paying less than a certain higher price level for a suit may find they are taking a

needless precaution! It is not necessary to hold high price as a conservative type of criterion of quality. Bullock's Stores for Men have endowed these suits with rugged dependability by maintaining a strict standard of construction! And the unusual quality of the material is final assurance of worth.

Cut along smart lines that drape the figure well—to enhance the beauty of the season's new shades. Flannels, finished worsteds, unfinished worsteds, cassimeres, sharkskins, shetlands, chevots, tweeds, homespuns, serges, and many others. Selection, in style, fabric, color!

Stores for Men. BULLOCK'S Street Floor, Hill

## Men's English Sennitts

High grade Sennitts imported from England. Silk tip lining. Bon Ton Ivy sweat leather—a feature that makes the hat fit well and comfortably. Made in all dimensions, all sizes. Excellent quality at a very modest price. \$4.

**Last Frontier Explorer Trained**

History in Making  
Miss Myra Wells holds unique record of Byrd Expedition in Antarctica, written up by pupils from adventurer's own daily radio account to The Times.

**STUDENTS  
SEE MAKING  
OF HISTORY**

Pupils Follow Up Daily  
Radio Reports of Byrd  
Expedition With Book

Benefit of the Byrd expedi-  
dition in the Antarctic may not  
be apparent as yet, but at least  
one example of appreciation of  
it has come to light in a book re-  
cently made by pupils of the B-3  
grade of the Tenth-street school.  
As a project in language and art  
for the past five months their teach-  
er, Miss Virginia E. Miller, has read  
to them all of the articles from Lit-  
tle America by Russell Owen, which  
appear in The Times from day to  
day, this being the only available  
material on the expedition. From  
the articles the children obtained  
the background for the stories, each  
one of which is illustrated by its  
author with a full-page water-color  
picture. Penguins, icebergs, air-  
planes, camp dwellings and the like  
appear according to Owen's descrip-  
tions.  
There are about thirty stories and  
pictures in the book, which has at-  
tracted much favorable comment  
from art supervisors and school offi-  
cials for its evidence of imaginat-  
ion, perception and intelligent in-  
terest on the part of the children.  
The book will be in the children's  
room at the Los Angeles Public Li-  
brary for exhibition during the sum-  
mer months.

**ACTRESS ASKS TO HAVE  
FILM NAME LEGALIZED**

Marian Nixon, whose real name  
is Marian Elise Benjamin, has used  
her screen name so long that she  
has developed a real affection for  
it. So on July 21, next, she will  
appear in Superior Judge McComb's  
court to have the "Benjamin" taken  
out. Mrs. Nixon formerly was  
married to Joseph Benjamin, and  
says when she was divorced she re-  
spected to have her maiden name  
restored.

**HALL-USE RULED ON**  
Women's auxiliaries to veterans  
organizations can use space in Pa-  
triotic Hall, a county-owned build-  
ing, if its use by the organizations  
who are permitted by law to use it  
is not affected. Deputy Counsel  
Penn declared yesterday, in reply  
to a question by the county Board  
of Supervisors. The county can  
either rent space in the building, or  
donate it gratis, the opinion held.

**ORDINANCE ADOPTED**  
The Council has adopted the final  
ordinance for the Barryknoll Drive  
and Avenue 42 improvement dis-  
trict.
